

LEGISLATIVE BILL 209

Approved by the Governor May 26, 2009

Introduced by Langemeier, 23.

FOR AN ACT relating to irrigation; to amend section 46-238, Reissue Revised Statutes of Nebraska, and section 46-1654, Revised Statutes Cumulative Supplement, 2008; to change provisions relating to time for construction of works and dams; to harmonize provisions; and to repeal the original sections.

Be it enacted by the people of the State of Nebraska,

Section 1. Section 46-238, Reissue Revised Statutes of Nebraska, is amended to read:

46-238 (1) Within ~~six~~ twelve months after the approval of any application for water for irrigation, power, or other useful purpose by the department, the person making such application shall commence the excavation or construction of the works in which it is intended to divert the water and the actual construction of any water power plant and reservoir or reservoirs for storage in connection therewith and shall vigorously, diligently, and uninterruptedly prosecute such work to completion unless temporarily interrupted by some unavoidable and natural cause. A failure to comply with this section shall work a forfeiture of the appropriation and all rights under the appropriation. The cost of promotion and engineering work shall not be considered a part of the cost of construction, and the progress of the construction work shall be such that one-tenth of the total work shall be completed within one year from the date of approval of the application. The construction of all work required in connection with the proposed project shall be prosecuted in the manner described in this section and with such a force as shall assure the average rate of constructional progress necessary to complete such work or works within the time stipulated in the approval of such application, notwithstanding the ordinary delays and casualties that must be expected and provided against. A failure to carry on the construction of either an irrigation project or a water power project as outlined in this section shall work a forfeiture of the appropriation and all rights under the appropriation, and the department shall cancel such appropriation. The department shall have free access to all records, books, and papers of any irrigation or water power company, shall have the right to go upon the right-of-way and land of any such company, shall inspect the work to see that it is being done according to plans and specifications approved by the department, and shall also keep a record of the cost of construction work when deemed advisable for physical valuation purposes.

(2) The department may extend, for reasonable lengths of time, the time for commencing excavation or construction, completion of works, the application of water to a beneficial use, or any of the other requirements for completing or perfecting an application for flow or storage rights as fixed in the approval of an application or otherwise for the appropriation of water. Such extension may be granted upon a petition to the department and the showing of reasonable cause. The department shall cause a notice of each petition received to be published at the petitioner's expense in at least one newspaper of general circulation in the county or counties of the appropriation once a week for three consecutive weeks. The department shall hold a hearing on the issue of extension on its own motion or if requested by any interested person. If a hearing is held, notice shall be given by certified mail to the applicant, to any person who requested a hearing, and to any person who requests notification of the hearing. The department may grant the extension in the absence of a hearing if no requests for a hearing are received. Any interested person may be made a party to such action. Any party affected by the decision on the petition may appeal directly to the Court of Appeals. Subsequent extensions may be made in the same manner.

Sec. 2. Section 46-1654, Revised Statutes Cumulative Supplement, 2008, is amended to read:

46-1654 (1) Approval of applications for which approval under sections 46-233 to 46-242 is not required shall be issued within ninety days after receipt of the completed application plus any extensions of time required to resolve matters diligently pursued by the applicant. At the discretion of the department, one or more public hearings may be held on an application.

(2) Approval of applications under the Safety of Dams and Reservoirs Act, for which approval under sections 46-233 to 46-242 is required, shall not be issued until all pending matters before the department under the Safety

of Dams and Reservoirs Act or such sections have been resolved and approved. Approval under the act and approval under such sections shall be issued simultaneously.

(3) Application approval shall be granted with terms, conditions, and limitations necessary to safeguard life and property.

(4) If actual construction, reconstruction, enlargement, alteration, breach, removal, or abandonment of the dam is not commenced within the time established by the department, the application approval becomes void, except that the department may, upon written application and for good cause shown, extend the time for commencing construction, reconstruction, enlargement, alteration, breach, removal, or abandonment. If approval under sections 46-233 to 46-242 is also required, the department may not extend the time for commencing construction without following the procedures and granting a similar extension under subsection (2) of section 46-238.

(5) Written notice shall be provided to the department at least ten days before construction, reconstruction, enlargement, alteration, breach, removal, or abandonment is to begin and such other notices shall be given to the department as it may require.

Sec. 3. Original section 46-238, Reissue Revised Statutes of Nebraska, and section 46-1654, Revised Statutes Cumulative Supplement, 2008, are repealed.
