Laurie Lage Introducer

Brian Dunnigan Department of Natural Resources

Opponents: Representing:

Neutral: Representing:

Summary of purpose and/or changes:

LB 31, introduced on behalf of the Department of Natural Resources, would change supplemental direct flow agricultural appropriations relating to additional flows and how the department considers new permits.

Section 1 amends 46-240.01, relating to supplemental additional appropriations for agricultural appropriators, by eliminating the language that gives existing agricultural appropriators, if below the statutory limit, a right of additional supplemental appropriations from direct flow of public waters within the drainage basin of the stream from which such water originates.

Section 2 amends 46-290, relating to intrabasin transfers, by removing reference to the statute in section 1. This means that if an appropriator gets a supplemental additional appropriation from direct flow application approved, they will no longer have the right to transfer such appropriation.

Section 3 repeals the original sections.

Explanation of amendments:

AM206 strikes section 2 from the bill. The reference was put in as a clarification and resulted in an unintentional policy change regarding transfers.

Chris Langemeier, Chairperson
