LB 131, as amended, provides that whenever a sanitary and improvement district (SID) receives notice that a city or village is proposing to annex territory within the SID they are prohibited from spending assets for a period of 90 days, except for those costs that are identified in the bill. No immediate fiscal impact. This limitation on SID spending will only come into play when an annexation notice is received. At that time there may be an impact on SID expenditures.

The adoption of AM2047 would incorporate the provisions of LB 827 and would allow county treasurers to retain a collection fee for the collection of all sums of money, general or bonded, of sanitary improvement districts. The fee would be set at 2% of the sums collected. There would be a revenue increase to county governments undertaking such collections, but the amount would vary by county. Lancaster County reports that there would be a small revenue increase, and Douglas County estimates that there would be a revenue increase of \$649,674 in FY16-17 and \$612,783 in FY17-18. SIDs would experience a corresponding revenue decrease.
