LEGISLATIVE RESOLUTION 31. Introduced by Halloran, 33; Bostelman, 23; Brandt, 32; Brewer, 43; Briese, 41; Clements, 2; Dorn, 30; Erdman, 47; Hansen, B., 16; Hardin, 48; Holdcroft, 36; Linehan, 39; Lippincott, 34; Lowe, 37; McDonnell, 5; Moser, 22; Murman, 38; Sanders, 45; Slama, 1; DeKay, 40.

WHEREAS, the Founders of the Constitution of the United States empowered state legislators to be guardians of liberty against future abuses of power by the federal government; and WHEREAS, the federal government has created a crushing national debt through improper and imprudent spending; and WHEREAS, the federal government has invaded the legitimate roles of the states through the manipulative process of federal mandates, most of which are unfunded to a great extent; and WHEREAS, the federal government has ceased to live under a proper interpretation of the Constitution of the United States; and WHEREAS, it is the solemn duty of the states to protect the liberty of our people, particularly for the generations to come, to propose amendments to the Constitution of the United States through a convention of states under Article V to place clear restraints on these and related abuses of power; and WHEREAS, in 2022 the One Hundred Seventh Legislature, Second Session, adopted

Legislative Resolution 14 which contained an application for an Article V Convention to propose constitutional amendments identical to those proposed in this resolution, but provided that the application would be rescinded on February 1, 2027, five years after the passage of Legislative Resolution 14.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Legislature hereby applies to Congress, under the provisions of Article V of the Constitution of the United States, for the calling of a convention of states limited to proposing amendments to the Constitution that impose fiscal restraints on the federal government, limit the power and jurisdiction of the federal government, and limit the terms of office for its officials and members of Congress.

2. That the Legislature adopts this application with the following understandings, reservations, and declarations:

- (a) An application to Congress for an Article V convention confers no power on Congress other than to perform a ministerial function to call for a convention;
- (b) Such ministerial duty shall be performed by Congress only when Article V applications for substantially the same purpose are received from two-thirds of the legislatures of the several states;
- (c) The power of Congress to call a convention solely consists of the authority to name a reasonable time and place for the initial meeting of the convention;
- (d) Congress possesses no power whatsoever to name delegates to the convention, as this power remains exclusively within the authority of the legislatures of the several states;
- (e) Congress possesses no power to set the number of delegates to be sent by any of the states;
- (f) Congress possesses no power whatsoever to determine any rules for such convention;
- (g) By definition, a convention of states means that states vote on the basis of one state, one vote;
- (h) A convention of states convened pursuant to this application is limited to consideration of topics specified in this resolution and no other;
- (i) The Legislature may recall its delegates at any time for breach of their duties or violations of their instructions pursuant to the procedures adopted in this resolution;
- (j) Pursuant to the text of Article V, Congress may determine whether proposed amendments shall be ratified by the legislatures of the several states or by special state ratification conventions. The Legislature recommends that Congress specify its choice on ratification methodology contemporaneously with the call for the convention;
- (k) Congress possesses no power whatsoever with regard to the Article V convention beyond the two powers acknowledged in this resolution; and
- (l) Nebraska places express reliance on prior legal and judicial determinations that Congress possesses no power under Article I of the Constitution relative to the Article V process, and that Congress must act only as expressly specified in Article V.

3. That this application hereby repeals, rescinds, cancels, renders null and void, and supersedes the application to the Congress for a convention under

Article V of the Constitution of the United States by this state in Legislative Resolution 14 as adopted by the One Hundred Seventh Legislature of Nebraska, Second Session, in 2022; and

4. That the Clerk of the Legislature shall prepare an official copy of this resolution to the President and Secretary of the United States Senate, the Speaker and Clerk of the United States House of Representatives, each member of the Nebraska Congressional delegation, and the presiding officers of each of the legislative houses in the several states requesting their cooperation.

5. This application constitutes a continuing application in accordance with Article V of the Constitution of the United States until the legislatures of at least two-thirds of the several states have made applications to Congress for an Article V convention on the same subject.

LEGISLATIVE RESOLUTION 146. Introduced by Conrad, 46; Dungan, 26.

WHEREAS, the people living on the land that would eventually be designated as the District of Columbia were provided the right to vote for representation in Congress when the United States Constitution was ratified in 1788; and

WHEREAS, the passage of the Organic Act of 1801 placed the District of Columbia under the exclusive authority of the United States Congress and abolished residents' right to vote for members of Congress and the President and Vice President of the United States; and

WHEREAS, residents of the District of Columbia were granted the right to vote for the President and Vice President through passage of the Twenty-Third Amendment to the United States Constitution in 1961; and

WHEREAS, as of 2021, the United States Bureau of the Census data estimates that the District of Columbia's population at approximately 689,545 residents, which is comparable to the populations of Wyoming (576,851), Vermont (643,077), Alaska (733,391), and North Dakota (779,094); and

WHEREAS, residents of the District of Columbia share all the responsibilities of United States citizenship, including paying more federal taxes than residents of twenty-two states, service on federal juries, and defending the United States as members of the United States Armed Forces in every war since the War for Independence, yet they are denied full representation in Congress; and

WHEREAS, the residents of the District of Columbia themselves have endorsed statehood for the District of Columbia and passed a District-wide referendum on November 8, 2016, which favored statehood by eighty-six percent; and

WHEREAS, no other democratic nation denies the right of self-government, including participation in its national legislature, to the residents of its capital; and

WHEREAS, the residents of the District of Columbia lack full democracy, equality, and citizenship enjoyed by the residents of the fifty states; and

WHEREAS, the United States Congress repeatedly has interfered with the District of Columbia's limited self-government by enacting laws that affect the District of Columbia's expenditure of its locally raised tax revenue, including barring the usage of locally raised revenue, thus violating the fundamental principle that states and local governments are best suited to enact legislation that represents the will of their citizens; and

WHEREAS, although the District of Columbia has passed consecutive balanced budgets since Fiscal Year 1997, it still faces the possibility of being

shut down yearly because of Congressional deliberations over the federal budget; and

WHEREAS, District of Columbia Delegate Eleanor Holmes Norton and Delaware United States Senator Tom Carper introduced in the 117th Congress H.R. 51 and S. 51, the Washington, D.C. Admission Act, that provides that the State of Washington, D.C. would have all the rights of citizenship as taxpaying American citizens, including two Senators and at least one House member; and

WHEREAS, the United Nations Human Rights Committee has called on the United States Congress to address the District of Columbia's lack of political equality, and the Organization of American States has declared the disenfranchisement of the District of Columbia residents a violation of its charter agreement, to which the United States is a signatory.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Legislature urges the members of the United States Congress to enact federal legislation granting statehood to the people of Washington, D.C.

2. That copies of this resolution be sent to the Speaker of the United States House of Representatives, the President of the United States Senate, and each member of the Nebraska congressional delegation.

ATTORNEY GENERAL'S OPINION

Nebraska Department of Justice

Opinion No. 23-009 — December 15, 2023

Opinion for Senator Tom Brewer

The Power of Municipalities to Regulate the Possession of Weaponry at Public Parks, Trails, and Sidewalks.

Summary: Municipalities lack authority to regulate the possession of firearms and certain weapons in quintessential public spaces, such as parks, trails, and sidewalks. A statute enacted in 2023, L.B. 77, deprives municipalities of regulatory authority over the possession of firearms or other weapons. And municipalities cannot use their common law proprietary authority to evade this regulatory restriction. Additionally, a blanket ban on firearms possession in such spaces would infringe constitutional rights under the Second Amendment and the Nebraska Constitution.

This year, the Legislature passed L.B. 77, which, after becoming law, significantly changes the way the possession, carriage, and sale of firearms and other weapons are regulated in Nebraska. L.B. 77, 108th Leg., 1st Sess. (2023) (enacted). Relevant here, L.B. 77 declared the regulation of

the "ownership, possession, storage, transportation, sale, and transfer" of weaponry to be a "matter of statewide concern" and stripped municipalities of nearly all regulatory authority in that space. Neb. Rev. Stat. § 13-330 (Cum. Supp. 2023). In the wake of L.B. 77's passage, several Nebraska municipalities have issued executive orders that purport to restrict or ban the possession of weaponry on property the municipality owns or controls. These orders include public buildings (such as courthouses), and in some cases expand beyond buildings to include quintessential public places that are usually held open to the public at large, such as parks, trails, and sidewalks. See, e.g., *Prohibition of Firearms on City of Omaha Property*, Executive Order No. S-48-23 (Aug. 30, 2023), <https://perma.cc/N6KY-M47S>; *City of Lincoln Weapons Policy*, Executive Order No. 97985 (Sep. 12, 2023), <https://perma.cc/RBL8-MKXB>.

You have asked whether existing law "prevent[s] Nebraska municipalities from regulating the possession of firearms and other weapons in public spaces, e.g., public parks, trails, and sidewalks." It does. You have also asked whether additional legislation would be necessary to prevent municipalities from regulating weapon possession in these places. None is needed. Municipal action—regardless of the form it takes (enacted ordinance, executive order, informal policy, etc.)—that restricts or bans the possession of weaponry in quintessential public spaces, like those public places identified in your opinion request (parks, trails, sidewalks, and the like), violates at least two rules of law.

First, L.B. 77 forbids municipalities from "regulat[ing] the . . . possession [and] transportation . . . of firearm or other weapons, except as expressly provided by state law." Neb. Rev. Stat. § 13-330(2), (3). The public spaces identified in your request are not public buildings or like areas where municipal corporations can properly exercise significant common law "proprietary" authority; as such, restrictions on weapon possession in places such as parks, trails, and sidewalks necessarily are regulatory in nature. No matter the form of the restriction nor the way in which it is described, these prohibitions are in conflict with L.B. 77. Second, there is an individual constitutional right to bear arms in public secured by the constitutions of the United States and the State of Nebraska. Thus, even if a municipality possessed and could properly exercise proprietary authority over quintessential public spaces such as parks, trails, and sidewalks, a total ban or significant restriction on the possession of weaponry would violate those constitutionally protected rights.

Accordingly, measures like Omaha Executive Order S-48-23 and Lincoln Executive Order 97985 are unlawful, at least to the extent they restrict or prohibit the possession of weaponry in those quintessential public spaces traditionally held open to the public at large, such as public parks,

trails, and sidewalks. No additional legislation would be needed to cabin the authority of Nebraska municipalities to regulate the possession of firearms and other weapons in such spaces.

Because your opinion request expressly is directed towards these spaces, and not to specific public buildings such as courthouses, this opinion does not address the legality of the orders in those respects. Indeed, the question as to whether and to what extent a governmental entity may restrict possession in these facilities is a subject of ongoing jurisprudential and scholarly debate.

I.

A.

We begin with L.B. 77, the Legislature's 2023 law that deprived Nebraska municipalities of any regulatory authority over the possession of firearms and other weapons. The Act provides, in pertinent part:

- (1) The Legislature finds and declares that the regulation of the ownership, possession, storage, transportation, sale, and transfer of firearms and other weapons is a matter of statewide concern.
- (2) Notwithstanding the provisions of any home rule charter, counties, cities, and villages shall not have the power to:
 - (a) Regulate the ownership, possession, storage, transportation, sale, or transfer of firearms or other weapons, except as expressly provided by state law; or
 - (b) Require registration of firearms or other weapons.
- (3) Any county, city, or village ordinance, permit, or regulation in violation of subsection (2) of this section is declared to be null and void.

Neb. Rev. Stat. § 13-330. For L.B. 77 to make an executive order or other municipal action "null and void," three factors must be present. Voidable action must (1) regulate, (2) cover the "the ownership, possession, storage, transportation, sale, or transfer of firearms or other weapons," and (3) not be grounded in some express authority provided elsewhere in state law.

The second and third factors clearly apply to the Omaha and Lincoln executive orders. Omaha's order provides that "no person shall have in his or her possession any firearm on City Property" which is broadly

defined to include "all City managed buildings/facilities/parks/public spaces" and the "surrounding areas such as sidewalks, driveways, and parking lots under the City's Control." Executive Order No. S-48-23, <https://perma.cc/N6KY-M47S>. Lincoln's order prohibits the "possession of weapons" on "City property," which is defined as "any premises under the care and control of the City of Lincoln" including "sidewalks . . . [and] parks" Executive Order No. 97985, <https://perma.cc/RBL8-MKXB>.¹ Thus, both concern the possession of firearms or other weaponry. And neither cites to any provision of state law that "expressly provides" municipalities authority to regulate the possession of weaponry. Nor are we aware of one.

B.

Having concluded that the Omaha and Lincoln executive orders satisfy two of the three factors that trigger the preemptive language of L.B. 77, we turn to the final factor, whether those orders "regulate." They do.

The portions of the executive orders that apply to quintessential public spaces have a regulatory character. When a municipality engages in action that is "public in nature" or "in furtherance of general law for the interest of the public at large," it is exercising governmental (regulatory) power. *Gates v. City of Dallas*, 704 S.W.2d 737, 738 (Tex. 1986). This includes the promulgation of policies that are "aimed at society as a whole" and actions that are "historically undertaken exclusively by the State as one of its unique civic responsibilities." *Sebastian v. State*, 93 N.Y.2d 790, 795 (1999). For example, "it is clear that a municipality is acting in a governmental capacity in the acquisition and allocation of resources for fighting fires." *Hall v. City of Youngstown*, 239 N.E.2d 57, 60 (Ohio 1968).

Municipalities' regulatory authority stands in contrast to their proprietary authority. Municipal corporations, like all other persons or legal entities with a possessory interest in real property, enjoy fundamental property rights recognized at common law. See *Henry v. City of Lincoln*, 93 Neb. 331, 140 N.W. 664, 666 (1913). "Property owned by [a] city used in a proprietary business enterprise . . . is regarded by the law the same as property owned by any individual or business corporation." *Borgman v. City of Fort Wayne*, 215 Ind. 201, 206 (1939).

The "right to exclude" is one of the "most essential sticks" in the "bundle of rights commonly characterized as property." *Kaiser Aetna v. United States*, 444 U.S. 164, 176 (1979). Because municipalities possess proprietary authority, they can (absent other pertinent considerations, as discussed below) exercise this fundamental right at or in property they own or control. Thus, just as a private person or business entity can bid a

houseguest or other licensee to leave property under their control by simple request, a municipality exercising its proprietary authority can do the same. *See, e.g., State v. Stanko*, 304 Neb. 675, 685, 936 N.W.2d 353, 362 (2019). And subsidiary of the power to remove is the power to condition entry. The ubiquity of "no shirt, no shoes, no service" illustrates this principle in action at the most basic level.

Given the foregoing, it follows that there are places where, relying solely on its fundamental common law proprietary authority,² a municipality can restrict (or even ban entirely) the possession of firearms or other weapons. As our Supreme Court said in *Stanko*, the common law recognizes the right of business owners to "exclude from their premises [individuals] whose actions disrupt the regular and essential operations of the premises or threaten the security of the premises and its occupants." 304 Neb. at 686, 936 N.W.2d at 362. A municipality wearing its "proprietary hat" enjoys a commensurate right.

That said, the proprietary authority of municipal corporations over quintessential public spaces, such as public parks, trails, and sidewalks, is limited.³ Though municipalities may hold legal title to or otherwise exercise control over them, these spaces are held in trust for public use and are presumptively open to and accessible by the public at large. *Hague v. Comm. for Indus. Org.*, 307 U.S. 496, 515 (1939); *see also United States v. Kokinda*, 497 U.S. 720, 743–74 (1990) (Brennan, J., dissenting). A municipality that governs behavior in these places must, with limited exception, exercise regulatory, not proprietary, power. "Wherever the title of streets and parks may rest . . . [the] use of [these] public places has, from ancient times, been a part of the privileges, immunities, rights, and liberties of citizens." *Hague*, 307 U.S. at 515; *accord Abboud v. Lakeview, Inc.*, 237 Neb. 326, 335, 466 N.W.2d 442, 449 (1991) ("A park is for the benefit of and is held in trust by a city for the public").

The character of these quintessential public spaces makes them unamenable to most exercises of proprietary authority by a municipality. In *Hague*, the United States Supreme Court rejected the argument, advanced by a municipality, that because "the city's ownership of streets and parks is as absolute as one's ownership of his home" its ownership interest carried with it the "consequent power [to] altogether . . . exclude citizens from the use thereof." 307 U.S. at 514. Exercising a proprietary "right to exclude," the Court explained, is incompatible with the concept of a space that is "held in trust for the use of the public," which necessarily makes such spaces open to the public at large. *Id.* at 515.⁴

That does not mean these public areas are law-free zones. On the contrary, *Hague* recognized that "[t]he privilege of a citizen . . . to use the

streets and parks . . . may be *regulated* in the interest of all." *Id.* (emphasis added). But there is a material difference between the exercise of proprietary and regulatory (governmental) authority. *See, e.g., Bldg. & Const. Trades Council of Metro. Dist. v. Associated Builders & Contractors of Massachusetts/Rhode Island, Inc.*, 507 U.S. 218, 227 (1993); *City of Buffalo v. State Bd. of Equalization & Assessment*, 260 N.Y.S.2d 710, 713 (Sup. Ct. 1965), *rev'd on other grounds*, 272 N.Y.S.2d 168 (1966) ("The distinction between these capacities [proprietary and regulatory] is not semantical; nor are the consequences insignificant."). Thus, as the Supreme Court of Illinois has stated, because "public streets are held in trust for the use of the public" municipalities generally "do not possess proprietary powers over [them]." *Am. Tel. & Tel. Co. v. Vill. of Arlington Heights*, 156 Ill. 2d 399, 409, 620 N.E.2d 1040, 1044 (1993). Instead, there (and in analogous public places) "[t]hey only possess regulatory powers." *Id.*

At least insofar as they apply to public parks, trails, sidewalks and analogous spaces, the executive orders do not exercise propriety authority. Consider Lincoln Executive Order No. 97985, which applies broadly to "any premises under the care and control of the City of Lincoln" including "public sidewalks . . . [and] parks . . . under the City's ownership or control." Executive Order 97,985, <https://perma.cc/RBL8-MKXB>. The order explicitly states that it is "intended to protect and promote the health, safety, and welfare of *all* community residents." *Id.* (emphasis added). Similarly, the stated impetus for Omaha Executive Order S-48-23, which prohibits firearms at all property "owned or leased [by the] City of Omaha," is the city's "obligation to provide a safe place for [its] citizens" and the "members of the public" who have access to and are "able to use" city property. Executive Order S-48-23, <https://perma.cc/N6KY-M47S>.

On their face, these orders are "aimed at society as a whole" and the "interests of the public at large." They both apply their weapons prohibition to public parks, sidewalks, and other quintessentially public places that have "immemorially been held in trust for the use of the public." Concomitantly, these executive orders (at least the portions that apply to such quintessential public spaces) are best understood as regulatory measures.⁵

To sum up, because L.B. 77 deprives municipalities of any regulatory power with respect to the possession and transportation of weaponry, municipal action that bans or otherwise regulates the possession of firearms or other weapons in those quintessentially public spaces is unlawful.⁶ There can be little doubt that portions of the municipal actions that prompted this Opinion have a regulatory character. Public parks, trails, and sidewalks are presumptively open to the public at large. General edicts designed to govern behavior in such spaces, then, are not aimed at a small

subset of the public, like municipal employees or individuals who come to a government office or other facility (akin to a customer) to interact with the municipal corporation operating in a proprietary capacity (akin to a business). Instead, they operate as a policy prescription applicable to all. Action with this sort of universal impact necessarily involves the exercise of regulatory authority.

II.

The Lincoln and Omaha executive orders (and any similar municipal action) also violate the Constitution. Insofar as those orders limit the right to carry weapons in public for self-defense, they infringe on the right to "bear arms" secured by the constitutions of the United States and Nebraska.

Both the Second Amendment to the United States Constitution and Article I, Section 1, of the Nebraska Constitution secure the right of Nebraska citizens "to keep and bear arms." These constitutional enshrinements secure to Nebraskans the fundamental, "basic" right to carry a firearm or other weapon for the purpose of self-defense. *McDonald v. City of Chicago*, 561 U.S. 742, 767 (2010).

The United States Supreme Court has explained that the plain meaning of the phrase "bear arms" "naturally encompasses [the] public carry" of firearms. *New York State Rifle & Pistol Ass'n, Inc. v. Bruen*, 597 U.S. 1 (2022). The Second Amendment's reference to the right to "bear arms" refers to the right to "wear, bear, or carry . . . upon the person or in the clothing or in a pocket, for the purpose . . . of being armed and ready for offensive or defensive action in a case of conflict with another person." *D.C. v. Heller*, 554 U.S. 570, 584 (2008) (citations and internal quotation marks omitted). Thus, "the Second Amendment guarantees 'an individual right to possess and carry weapons in case of confrontation.'" *Bruen*, 597 U.S. at 33 (quoting *Heller*, 554 U.S. at 592). Given that a "confrontation can surely take place outside the home" a less expansive understanding of the right to bear arms—one that did not embrace a right to public carriage—would "nullify half of the Second Amendment's operative protections." *Id.*⁷

The import of *Bruen*, then, is clear: "The Second Amendment's plain text . . . presumptively guarantees . . . a right to 'bear' arms in public for self-defense." 597 U.S. at 33. To the extent some municipal action, like Lincoln's or Omaha's executive order, infringes on that right, it is unconstitutional.

That said, not every exercise of municipal proprietary authority that restricts firearm or other weapon possession is unconstitutional. Both

Bruen and *Heller* recognized that there are some "sensitive places" where it is constitutionally permissible for the possession of weapons to be "altogether prohibited." *Bruen*, 597 U.S. at 30; *D.C. v. Heller*, 554 U.S. 570, 626 (2008). "Courthouses" along with "legislative assemblies" and "polling places" have been offered as examples, *Bruen*, 597 U.S. at 30, as have "schools and government buildings," *Heller*, 554 U.S. at 626. The precise scope of the doctrine remains unsettled: *Bruen* rejected an overly broad conception—any location where "people typically congregate and where law-enforcement . . . professionals are presumptively available"—but left the task of outlining a "comprehensive definition" to a later date. *See* 597 U.S. at 30–31.

Just as was the case above, the fact that one portion of an executive order or other municipal action is unconstitutional does not necessarily render that action unlawful in its entirety.⁸ Many public buildings where government business is conducted can be fairly described as "public places;" some, like courthouses, are even presumptively open to members of the public. *See, e.g.*, Neb. Rev. Stat. § 24-1001 (Reissue 2016) ("All judicial proceedings of all courts established in this state must be open to the attendance of the public unless otherwise specially provided by statute."). But there are many obvious and material differences between a courtroom and a public park or trail or sidewalk. That a municipality cannot constitutionally ban the possession of firearms or other weapons in a park or on its sidewalks does not mean that weapons must be allowed in the public gallery of a courtroom or other sensitive place.

Because your question is addressed to public spaces such as parks, trails, and sidewalks, not public buildings, this Opinion does not address where the "sensitive places" line exactly lies, which is a subject of ongoing jurisprudential and scholarly debate. Because state law already prohibits municipalities from regulating firearm possession, it suffices for present purposes to note that the sensitive places doctrine is but one of several possible reasons why constitutional limitations on the possession of weaponry may differ across various locations that can fairly be described as a "public space."

III.

Existing law prevents Nebraska municipalities from regulating the possession of firearms or other weapons in public spaces like those identified in your opinion request, namely "public parks, trails, and sidewalks." Municipalities have sharply limited proprietary authority over these spaces, and L.B. 77 deprived municipalities of all regulatory authority over the possession of weaponry. Consequently, municipalities have no

lawful means of restricting or prohibiting the possession of firearms or other weapons there.

Furthermore, the right to publicly bear arms for self-defense provides a constitutional backstop that would preclude a blanket prohibition on weapon possession in those spaces, regardless of whether a municipality sought to implement such a restriction or prohibition by way of regulation or through an exercise of its common law proprietary authority.

Michael T. Hilgers
Attorney General of Nebraska

¹ Lincoln’s executive order does exclude from its definition of “City property” “public street[s]” and “public sidewalk[s] that run[] parallel to a public street.”

² L.B. 77 contains a provision that effectively codifies the proprietary rigexclude individuals carrying a concealed handgun. L.B. 77, § 9, 108th Leg., 1st Sess. (2023) (enacted), *codified at* Neb. Rev. Stat. § 28-1202.01(2). L.B. 77 does not contain any language suggesting that this provision was intended to *restrict* the scope of proprietary authority recognized at common law. Our Supreme Court has instructed that legislative enactments should not be read or construed to “restrict[] or abolish[] common-law rights” unless “the plain words of the statute compel such result.” *Macku v. Drackett Prod. Co.*, 216 Neb. 176, 180, 343 N.W.2d 58, 61 (1984). Thus, it would be inappropriate to read L.B. 77 as a limitation, rather than a textual reinforcement, of the proprietary authority recognized at common law. Individuals or entities properly imbued with and appropriately exercising their common law proprietary authority can restrict or forbid the carriage of any type of firearm or other weaponry on property they own or control.

³ The limited proprietary authority municipalities retain over these spaces can be used to do basic things, such as set hours of operation. *See, e.g., Borough of Dumont v. Caruth*, 123 N.J. Super. 331, 336 (Mun. Ct. 1973) (“[A] municipality may close a park during certain hours of the night just as it may close public buildings . . . municipalities are [not] required to hold open all public facilities for public use 24 hours a day.”).

⁴ The inaptitude of proprietary power over such spaces also reflects practical reality. “Public access [to streets, sidewalks, parks, and other similar public spaces] is not a matter of grace by government officials but rather is inherent in the open nature of the locations.” *Kokinda*, 497 U.S. at 743 (Brennan, J., dissenting).

⁵ Our conclusion would hold even if the orders were understood to properly exercise proprietary authority. A governmental entity cannot evade an express restriction on its regulatory authority through the exercise of its proprietary

power. See *Wisconsin Dep't of Indus., Lab. & Hum. Rels. v. Gould Inc.*, 475 U.S. 282, 290–91 (1986). “In exercising its proprietary power, a municipality may not act beyond the purposes of [a] statutory grant of power or contrary to express statutory or constitutional limitations.” *Burns v. City of Seattle*, 161 Wash. 2d 129, 154 (2007). When a municipality attempts to subvert a regulatory restriction in this way, even a legitimate exercise of proprietary power will be treated as if it were an exercise of regulatory authority, and any applicable limitations constraining an exercise of regulatory authority in that context will be respected. See *Gould*, 475 U.S. at 291; *Friends of the Eel River v. N. Coast R.R. Auth.*, 3 Cal. 5th 677, 736–37 (2017).

⁶ Section 13-330 renders any municipal regulation of “the ownership, possession, storage, transportation, sale, or transfer of firearms or other weapons” not expressly permitted by state law to be “null and void.” Neb. Rev. Stat. § 13-330(2), (3). Whether Section 13-330 requires the *entirety* of an impermissible ordinance or other action be nullified, or instead renders only any unlawful portion of such action void, raises a severability question that is not facially resolved by the statutory text. Because there is no need to resolve that question here, we decline to wade into the murky waters of severability.

⁷ Our Supreme Court has not directly addressed whether Article I, Section 1, of the Nebraska Constitution embraces the public carriage of firearms. That said, textual similarity between the Second Amendment and Article I, Section 1, leads us to presume, at a minimum, a congruence between the rights secured by those two authorities.

⁸ Then again, Section 13-330 may require just that. This Opinion does not address this question of severability. See FN 6, *supra*.

PROPOSED RULES CHANGE(S)

Senator Erdman filed the following proposed rule changes:

Proposed Rule Change 1

Rule 7, Sec. 10. Cloture. At any stage of consideration the principal introducer of the bill under consideration, a co-introducer with the consent of the principal introducer, or the chairperson of the committee, if the bill is introduced by that committee, may move for cloture to the presiding officer; however, the presiding officer may rule such motion for cloture out of order if, in the presiding officer's opinion, a full and fair debate has not been afforded. Such ruling by the presiding officer shall not be subject to challenge. Whenever a motion for cloture is offered, the presiding officer shall immediately recognize such introducer or chairperson and shall then order debate on the pending amendment or motion to cease. A vote on the cloture motion shall be taken immediately. ~~A two-thirds majority of the elected members shall be required for the cloture motion to be successful.~~ A motion for cloture shall be deemed successful whenever passed by two-thirds of the members voting Yea or Nay with no fewer than 25 affirmative votes. A vote of Present/Not Voting shall not be counted as a vote when voting on a cloture motion. A motion for cloture on a major proposal shall require a three-fifths majority of the members voting Yea or Nay to pass. A motion for cloture which fails for lack of sufficient votes shall result in the debate on the bill or resolution ending for the day. When the Speaker chooses to resume debate on the bill or resolution, successive motions for cloture shall not be in order until one additional hour of debate has occurred. A vote on a cloture motion shall be a record machine vote.

Proposed Rule Change 2

RULE 11 – MOTIONS FOR DEBATE ON RULE CHANGES

All Rules of Procedure shall take precedence and hold priority over any motions for debate on changes to the rules.

Sec. 1. Motion, in Writing, Withdrawal, Parameters of Debate. (a) A motion when debating changes to the rules shall be either stated by the presiding officer or read by the Clerk before a vote is taken. All motions shall be submitted in writing if requested by the presiding officer or any senator.

(b) Once motions are stated they may be withdrawn or modified by the mover before a decision or ordering of a vote has been made. A motion to reconsider may be withdrawn only with unanimous consent or a viva voce majority vote of the elected members.

(c) The Speaker shall order the debate on the rules, shall set time parameters for debate on each proposed rule change, and shall allot up to eight hours of debate on any proposed rule change. Upon completion of the debate or expiration of the allotted time for debate as prescribed by the Speaker, which ever comes first, a record machine vote shall be taken to advance the proposed rule change. If there is a pending motion or amendment before the body when either the debate ends or the allotted time for debate expires, a record machine vote shall be taken on the pending matter followed by an immediate record machine vote to advance the proposed rule change. If the pending matter is an amendment to an amendment, following a record machine vote on the amendment to the amendment, a record machine vote shall be taken on the original amendment. If the original amendment has been divided, then the record machine vote shall be on the original undivided amendment being considered.

(d) If the Legislature has not adopted a permanent set of standardized rules by the 15th scheduled day of the session during an odd numbered year, a motion to adopt the previous year's set of standardized rules as amended shall be in order. A motion to adopt the previous year's set of standardized rules is neither amendable nor debatable.

(e) Because proposed rule changes effect parliamentary procedures rather than the constitutions or the state statutes, they shall require only one round of debate and shall not be subject to the three rounds of debate reserved for bills and resolutions for constitutional amendments.

Sec. 2. Proposals. Propositions considered for a standardized set of rules and propositions considered for changes in the rules shall take the form of a rules proposal and shall be known as a proposed rule change. Because proposed rule changes are neither bills nor resolutions, they must be submitted in a legible written form with new language to be added to the rule underlined or written in red ink and language to be deleted from the rule shown with a strike through.

Sec. 3. Ordering of Priority Motions. (a) Priority motions shall take precedence over and hold priority over non-priority motions, but shall not hold precedence over or hold priority over any of the Rules of Procedure. Priority motions shall take precedence in the following order:

- (1) To recess
- (2) To adjourn
- (3) Call the question
- (4) Motion to adopt temporary rules
- (5) For cloture
- (6) Motion to adopt permanent rules
- (7) To Recommit
- (8) To postpone to a time certain [Bracket]
- (9) To postpone indefinitely

Sec. 4. Priority Motions.

(a) Motion to Recess. (1) The motion to recess is a motion to temporarily suspend debate on a proposed rule change or an amendment to a proposed rule change. A motion to recess shall hold precedence over and hold priority over all other priority motions, but shall not be in order when another member is speaking or when a motion to adjourn or recess has just been defeated.

(2) Successive motions to recess for dilatory purposes shall never be in order and shall be subject to the dilatory rule.

(3) The motion to recess is not debatable, except that the Speaker shall be privileged to speak to the motion prior to any vote on such motion.

(4) The motion to recess shall be deemed successful whenever a viva voce majority of the members present agree.

(b) Motion to Adjourn. (1) The motion to adjourn is a motion to end debate on any rules proposals or other matters for the remainder of the day with the intention of returning for further debate on the rules at the next scheduled legislative day.

(2) A motion to adjourn to a time certain shall have precedence over a motion to adjourn. A motion to recess shall take precedence over either of such motions. Successive motions to adjourn for dilatory purposes shall never be in order and shall be subject to the dilatory rule.

(3) When a motion to adjourn has been made, the Speaker shall be privileged to speak to the motion prior to any vote on such motion. A motion to adjourn is not debatable.

(4) A motion to adjourn shall be deemed successful whenever a record majority of the members present agree.

(c) Motion to Call the Question. (1) A motion to call the question is a motion asking the presiding officer to end debate on a proposed rule change, an amendment, or a motion by calling for the previous (concluding) question. A Senator making the motion for the previous question, shall ask the presiding officer to call for the previous question. The presiding officer shall then ask the body, "Shall debate cease?"

(2) At any time during a debate on a proposed rule change any member of the body wishing to end debate on a proposed rule change, an amendment, or a motion and who has been recognized by the presiding officer to speak may call for the debate to cease by calling for the previous question.

(3) A motion to call for the question shall be made only in the normal course of speaking order and shall be in order when demanded by ten or more members, and must be sustained by a record vote of a majority of the elected members, and until decided shall, except as provided in this section of this rule, preclude further debate and all amendments and motions, except a motion to recess or a motion to adjourn.

(4) On a motion to call the question there shall be no debate. All incidental questions of order, arising after a motion is made for a previous question, and pending such motion, shall be decided, whether on appeal or otherwise, without debate.

(5) When the previous question shall have been ordered on a proposed rule change, the chair of the Rules Committee shall be given the right to close the debate thereon.

(6) A motion for the previous question shall be deemed successful by way of a record majority vote of the members present.

d) Motion to Adopt Temporary Rules. A motion to adopt temporary rules is a motion to adopt the rules from a previous session of the Legislature or another set of standardized rules until permanent rules have been so adopted. A motion to adopt temporary rules shall be deemed successful when passed by a record majority vote of the members elected. Once permanent rules have been adopted, the motion to adopt temporary rules shall be deemed out of order, except when preceded by a successful motion to suspend the rules.

(e) Motion to Adopt Permanent Rules. A motion to adopt permanent rules is a motion to adopt a set of standardized rules for the remainder of the Legislative session at hand. Any member of the Legislature may move to adopt a permanent set of standardized rules, provided that no permanent set of rules have yet been adopted. The presiding officer shall not recognize a

motion to adopt a permanent set of rules unless such motion is supported by one tenth of the members elected and verified by a show of hands. A motion to adopt a permanent set of rules shall be deemed successful when passed by a majority roll call vote of the members elected.

(f) Motion for Cloture. (1) The motion for cloture is a motion to end debate on the current amendment to the rules under consideration and immediately proceed to voting on the proposal along with any pending amendments to the proposal which have already been recognized by the presiding officer during the course of the debate. At any time during debate on the rules the principal introducer of a proposed rule change under consideration or the chairperson of the rules committee may move for cloture to the presiding officer. Whenever a motion for cloture is offered, the presiding officer shall immediately recognize such introducer or chairperson and shall then order debate on the pending motion to cease. A vote on the cloture motion shall then be taken.

(2) A motion for cloture on an amendment to a proposed rule change shall be in order except while a member is speaking, and a motion for cloture is not debatable. If the motion for cloture is successful, a vote on the pending matter shall be taken immediately and without debate.

(3) If any Senators have left the chamber, the presiding officer shall make a call of the house before voting on a cloture motion.

(4) A motion for cloture shall be deemed successful whenever two-thirds of the members voting Yea or Nay have cast their votes as Yea or Nay and no fewer than 25 Senators have cast a vote. A vote of Present/Not voting shall not be counted as a Yea or Nay vote when voting on a cloture motion.

(5) A motion for cloture which fails for lack of sufficient votes shall result in the debate on the proposed rule change ending for the day. When the Speaker chooses to resume debate on the proposed rule change, a motion for cloture shall be out of order. Debate may continue until time expires and a record vote shall then be taken on the proposed rule change.

(g) Motion to Amend. (1) A motion to amend is a motion to remove content and/or add content to a proposed rule change.

(2) A motion to amend shall be submitted in writing and shall contain the actual words to be added to a proposed rule change and/or the actual words to be stricken from a proposed rule change.

(3) During an odd numbered year or unless otherwise directed by the Speaker, and a motion to amend is under consideration, a motion to amend that amendment shall be in order.

(4) A motion to amend the rules shall be deemed successful by way of record majority vote of the members elected.

(h) Motion to Recommit. (1) The Motion to Recommit is a motion to remove a proposed rule change from debate and send it back to the Rules Committee for reconsideration and/or amending.

(2) A motion to recommit shall not be recognized by the presiding officer until after the introducer of a proposed rule change has opened by explaining the rule or the rule change for a period up to ten minutes.

(3) Any Senator filing a motion to recommit shall do so in writing to the Clerk.

(4) The presiding officer shall not recognize a motion to recommit unless such motion is agreed to by five or more members and is verified by way of a show of hands.

(5) A motion to recommit may only be filed once on a proposed rule change, except that this limitation shall not apply to the introducer of the proposed rule change. This rule shall apply even after the motion fails to be attested to by five or more members by way of a show of hands.

(6) A motion to recommit shall be deemed successful if three-fifths of the members of the Legislature agree by way of a record machine vote.

(i) Motion to Postpone to a Time Certain [Bracket]. (1) The motion to postpone to a time certain is a motion to postpone debate on a proposed rule change to another time or to another date. The motion to postpone to a time certain is also known as a bracket motion.

(2) A motion to postpone to a time certain [Bracket] shall not be recognized by the presiding officer until after the chair of the Rules Committee or the introducer of the proposed rule change has opened on the proposal by explaining the proposal for a period up to ten minutes.

(3) The presiding officer shall not recognize a motion to postpone to a time certain [Bracket] unless such motion is agreed to by five or more members and is verified by way of a show of hands.

(4) Any Senator filing a motion to postpone to a time certain shall do so in writing to the Clerk and indicate the time or the date when debate on such rule proposal or proposed rule change should reconvene.

(5) A motion to postpone to a time certain may only be recognized by the presiding officer once on a proposed rule change, except that this limitation shall not apply to the introducer of the proposed rule change. A Senator filing a second motion to postpone to a time certain on shall be deemed out of order.

(6) A proposed rule change successfully postponed to a time certain after sine die shall be subject to the rule to indefinitely postpone.

(7) A vote to postpone to a time certain [Bracket] shall be deemed successful when three-fifths of the members of the Legislature agree by way of a record machine vote.

(i) Motion to Postpone Indefinitely. (1) A motion to postpone a proposed rule change effectively kills it. A proposed rule change which has been indefinitely postponed means that no further action may be taken on the proposal.

(2) A motion to indefinitely postpone a proposed rule change shall not be recognized by the presiding officer until the proposal is read and the introducer of the proposal has been given up to ten minutes to open on the proposed rule change by explaining the proposal.

(3) The presiding officer shall not recognize a motion to indefinitely postpone a rules proposal or a proposed rule change unless such motion is agreed to by five or more members and is verified by way of a show of hands.

(4) The motion to indefinitely postpone a proposed rule change shall not be recognized by the presiding officer more than once for a proposal being debated. A member who files a second motion to indefinitely postpone a proposed rule change shall be deemed out of order. This rule shall apply even after the motion fails to be attested to by five or more Senators by way of a show of hands

Sec. 5. Incidental Motions. Incidental motions may pertain to correcting breaches of good parliamentary procedure.

(a) Motion of Germaneness. (1) No motion, proposition, or subject different from that under consideration shall be admitted under color of amendment. Any amendment that is not germane is out of order and is subject to the germaneness rule. Germane amendments relate only to the details of the specific subject of the bill or resolution and must be in a natural and logical sequence to the subject matter of the original proposal. A nongermane amendment includes one that relates to a substantially different subject. A motion of germaneness shall be deemed successful whenever a viva voce majority of the members agree.

(b) Motion to Divide the Question. (1) Any member may call for the division of a question, which shall be divided if it comprehends propositions in substance so distinct that, one being taken away, a substantive proposition shall remain for the decision of the Legislature. Once a division is ordered each component shall be treated as a separate and distinct proposition. For purposes of germaneness, even if a question is germane prior to a request for division, each and every other component or proposition of the divided question will be subject to germaneness rulings.

(2) Once a vote or change has occurred on any of the divisible questions, the remaining divided sections may not be withdrawn without a majority of those voting or without unanimous consent. A motion to strike out and insert shall be deemed indivisible, but a motion to strike out being lost, shall not preclude an amendment or a motion to strike out or insert.

(3) A motion to divide the question shall be deemed successful whenever a viva voce majority of the members present agree.

(4) Following a successful vote of the members to divide the question, the Lieutenant Governor or the presiding officer shall decide how the question is to be divided. Such decision shall not be subject to any further debate.

(c) Motion for a Call of the House. Such amendment when considered may be adopted by a majority vote of the elected members, except an amendment which is substantially the same as any bill indefinitely postponed shall require a three-fifths vote of the elected members. Both a motion to return a bill to Select File for a specific amendment, and the specific amendment once the bill has been returned to Select File, are neither divisible nor amendable.

(b) A point of order to determine the germaneness of a specific amendment may be considered during a motion to return a bill to Select File for that specific amendment.

Proposed Rule Change 21

Rule 6, Sec. 3. General File. ...

After the introduction of the bill and the introduction of the committee amendment, other priority motions shall have precedence in the order in which they are arranged under Rule 7, Section 3, except as provided for in Rule 1, Section 17. Motions to adjourn or recess shall remain in order except as limited by Rule 7, Section 9. The introducer's amendments, if any, shall be ~~considered~~ introduced following the ~~consideration~~ introduction of the standing committee amendments and any amendments thereto. ~~Other amendments and motions permitted by these rules may then be offered and shall be considered after the introducer has explained the bill in the order in which they are filed with the Clerk, subject to the provisions of Rule 7, Section 3 and Rule 1, Section 17. Further amendments will be considered in the order in which they are filed with the Clerk.~~

Proposed Rule Change 22

Rule 2, Sec. 10. Time Limit on Speaking. Only the ~~The~~ introducer of the matter pending may speak for ten minutes when he or she first presents the

matter to the Legislature, except that a committee chair may designate the vice chair or a member of the committee to introduce a committee bill or a committee's amendment in the absence of that committee chair. Each member shall be allowed to speak up to three times for not more than five minutes on each occasion, upon any one question in deliberation during the legislative day, without leave of the Legislature, unless he or she be the introducer of the matter pending in which case he or she shall be permitted to close after every other member choosing to speak shall have spoken or after a motion to cease debate has prevailed. The introducer's close shall be included within the three opportunities permitted for speaking to an issue.

Proposed Rule Change 23

Rule 7, Sec. 6. ~~Postpone to Time Certain.~~ Offering of Debatable Priority Motions. No motion to postpone to a time certain, to recommit, or to postpone indefinitely being ~~decided~~ offered, shall again be allowed ~~on the same day~~ at the same stage of the bill or proposition, except that the primary introducer of the bill, resolution, or main motion under consideration may offer one additional motion to recommit or to postpone indefinitely, if the Legislature has not previously decided on a motion to recommit or postpone indefinitely.

Proposed Rule Change 24

Rule 5, Sec. 6. Consent Calendar. ...

Such request must be filed with the Clerk prior to the ~~expiration of fifteen minutes of debate at that stage of consideration~~ reading of the bill at each stage of debate, on the bill to be removed.

Proposed Rule Change 25

Rule 7, Sec. 10. Cloture. At any stage of consideration the principal introducer of the underlying, bill, resolution, or main motion under consideration, a cointroducer with the consent of the principal introducer, or the chairperson of the committee, if the bill, resolution, or main motion is introduced by that committee, may move for cloture to the presiding officer, except that motions to adopt permanent rules or amendments to the permanent rules may not be subject to cloture.; ~~however, †~~The presiding officer may rule ~~such a~~ motion for cloture out of order if, in the presiding officer's opinion, a full and fair debate has not been afforded. Such ruling by the presiding officer shall not be subject to challenge. Whenever a motion for cloture is offered, the presiding officer shall immediately recognize such introducer or chairperson and shall then order debate on the pending amendment or motion to cease. A vote on the cloture motion shall be taken immediately. A two-thirds majority of the elected members shall be required

for the cloture motion to be successful. A motion for cloture shall be in order except while a member is speaking, and a motion for cloture is not debatable. If the motion for cloture is successful, a vote on the pending matter shall be taken immediately, without debate. If the pending matter is an amendment to an amendment, following a vote on the amendment to the amendment, a vote shall be taken on the original amendment. If the original amendment has been divided, then the vote shall be on the original undivided amendment being considered. Finally, a vote on the advancement of the bill shall be taken.

A motion for cloture shall have precedence over all other motions except a motion to recess or adjourn.

Proposed Rule Change 26

Rule 1, Sec. 12. Overrule Ruling of the Chair. The President may speak to a point of order in preference to members, and shall decide the questions or order, subject to a challenge to the Legislature by any member, on which challenge no member may speak more than once, unless by leave of the Legislature, except that the challenging member may also open on their challenge. No member may yield time to another member, but may ask another member to yield to questioning. Challenges to the chair shall not be considered for purposes of determining full and fair debate in relation to a cloture motion. A motion for the previous question shall not be in order during debate on a challenge of the chair. In the event of a challenge to a ruling of the chair, the ruling shall be restated and the question shall be phrased: "Shall the Chair be overruled?" A majority of those present shall be required to overrule the chair.

Proposed Rule Change 27

Rule 5, Sec. 4. Introducers Signing Bills. ...

(e) The introducers of all bills must submit a statement of intent for each bill to the appropriate committee chairperson at least ~~24 hours~~ five calendar days prior to the bill's hearing. The statement of intent should discuss clearly and completely the purposes and effects of the bill.

Proposed Rule Change 28

Rule 7, Sec. 3. Motion, in Writing, Withdrawal. ...

~~d. e.~~ To reconsider

~~e. f.~~ For the previous question

~~f. g.~~ To postpone to a time certain

~~g. h.~~ To recommit to a committee

~~h. i.~~ To amend

~~i. j.~~ To postpone indefinitely

...

~~Sec. 11. Motions and Amendments for Dilatory Purposes.~~ Motions and amendments shall not be filed for dilatory purposes. If more than two amendments and/or motions are offered to a bill or resolution, the principal introducer of the bill or resolution may raise a point of order stating that he or she believes the amendments and/or motions are being used for dilatory purposes. If, in the opinion of the Speaker, the motions and/or amendments are not dilatory, debate on the pending measure shall continue. If the Speaker has reason to believe that one or more of the amendments and/or motions are dilatory, the Speaker shall consult with the principal introducer of the original bill or resolution and the principal introducers of the amendment and/or motions in an attempt to reach an accord as to which amendments and/or motions should be considered by the Legislature. For that purpose, the Speaker may temporarily remove the entire bill or resolution from the agenda. After consultation, the Speaker shall forthwith decide which, if any, amendments and/or motions are dilatory and shall rule such amendments and/or motions out of order. A motion to overrule the chair on any decision made pursuant to this section is not in order except that a ruling of the chair may be challenged by an introducer of amendments and/or motions ruled to be dilatory in which instance the challenge shall be to all amendments and/or motions included in the Speaker's ruling. The consultation and the Speaker's ruling subsequent to consultation provided for in this section, shall in no case result in a bill or resolution being removed from the agenda for more than the current legislative day. Any amendment and/or motion ruled out of order by the Speaker shall not in any form, version, or substance be in order if again offered by any member at the same stage of debate. A motion to overrule the chair after a ruling is out of order.

Rule 7, Sec. 11. Dilatory Designation

Motions and amendments shall not be filed for dilatory purposes. If the primary introducer of a pending bill, resolution, or main motion believes that the bill, resolution, or main motion is the subject of dilatory action, the primary introducer may offer a motion to approve dilatory designation. A motion to approve dilatory designation is not debatable, amendable, nor divisible. It shall require a four-fifths vote of elected members to approve the dilatory designation.

If the motion is approved, all amendments and motions, except for a motion to invoke cloture, including those amendments and motions currently pending, are out of order, unless designated as in order by direction of the Speaker. No member shall be allowed to offer a motion to overrule the chair concerning amendments and motions ruled out of order after a bill, resolution, or main motion has received a dilatory designation. If no further amendments or motions have been designated as in order by direction of the Speaker and all members wishing to speak have exhausted their opportunities pursuant to Rule 2, Section 10, a motion to advance the bill is presumed to be in order.

After the motion is approved, the bill, resolution, or main motion shall carry its dilatory designation for the remainder of the stage of consideration that the designation was assigned on. Subsequent stages of consideration shall require an additional designation.

If the motion is not approved, debate shall resume and another motion to approve dilatory designation is not in order until an additional two hours of debate on the bill, resolution, or main motion has occurred.

Motions to adjourn and recess will remain in order regardless of dilatory designation, subject to the provisions of Rule 7, Section 9.

Senator Hansen filed the following proposed rule change:

Proposed Rule Change 29

Nothing in this section shall prevent local governing bodies from reviewing and adjusting vested pension benefits periodically as prescribed by ordinance.

The surviving spouse of any retired public officer, agent, or servant, who has retired under a pension plan or system, shall be considered as having pensionable status and shall be entitled to the same benefits which may, at any time, be provided for or available to spouses of other public officers, agents, or servants who have retired under such pension plan or system at a later date, and such benefits shall not be prohibited by the restrictions of this section or of Article XIII, section 3 of the Constitution of Nebraska.

(3) No more than one-half of the members appointed by the Governor may be affiliated with the same political party. No more than one-half of the members appointed by the Chief Justice may be affiliated with the same political party.

Notwithstanding Article I, section 16, Article III, section 18, or Article VIII, section 4, of this Constitution or any other provision of this Constitution to the contrary: (1) Taxes shall be levied by valuation uniformly and proportionately upon all real property and franchises as defined by the Legislature except as otherwise provided in or permitted by this Constitution; (2) tangible personal property, as defined by the Legislature, not exempted by this Constitution or by legislation, shall all be taxed at depreciated cost using the same depreciation method with reasonable class lives, as determined by the Legislature, or shall all be taxed by valuation uniformly and proportionately; (3) the Legislature may provide for a different method of taxing motor vehicles and may also establish a separate class of motor vehicles consisting of those owned and held for resale by motor vehicle dealers which shall be taxed in the manner and to the extent provided by the Legislature and may also establish a separate class for trucks, trailers, semitrailers, truck-tractors, or combinations thereof, consisting of those owned by residents and nonresidents of this state, and operating in interstate commerce, and may provide reciprocal and proportionate taxation of such vehicles. State of Nebraska, and such property or franchise may not be taken into consideration in determining whether taxes are levied by valuation uniformly or proportionately upon any property or franchise, and the Legislature may enact laws which statutorily recognize such class and which tax or exempt from taxation such class of property or franchise in such manner as it determines; and (8) the Legislature may provide that livestock shall constitute a separate and distinct class of property for purposes of taxation and may further provide for reciprocal and proportionate taxation of livestock located in this state for only part of a year; and (9) the Legislature may provide that residential property, as defined by the Legislature, shall constitute a separate and distinct class of property for purposes of taxation and may provide for a different method of taxing residential property, including a method that limits the growth of valuations placed on residential property. Taxes other than property taxes may be authorized by law. Existing revenue laws shall continue in effect until changed by the Legislature.

STATE OF THE STATE ADDRESS

President Kelly, Speaker Arch, and members of the 108th Nebraska Legislature.

Family, friends, and distinguished guests.

My fellow Nebraskans.

Over the past 11 days, Nebraska experienced historically brutal winter weather.

Subzero temperatures, back-to-back blizzards, and unrelenting winds paralyzed much of our state, stranding hundreds of travelers, preventing farmers and ranchers from reaching their farms and feeding their animals, shuttering businesses, challenging our power grid, and threatening safety and commerce for thousands.

To meet this emergency, Nebraskans helped Nebraskans, just as they have done countless times before.

State troopers, sheriff's deputies, police officers, other first responders, and snow fighters from across the state moved swiftly to rescue those trapped by the storms, clear roads, and dig out our communities and agriculture.

These brave men and women represent the best and the backbone of our state—public servants who rush into the storm and into harm's way to help their neighbors.

It is because of them—and because of the resilience of the toughest, hardest-working people in this land—that the state of our state is as strong as ever.

In the balcony today are Nebraska State Patrol Sergeant Jesse Pfeifer, Air National Guard Major Dave Strom, and Department of Transportation

District Operations Manager and Snow Fighter Tim Koenig.

We thank them for their tireless service to Nebraska, and I ask you to join me in recognizing them as representatives of all of Nebraska's law enforcement, first responders, National Guard, and highway workers.

We must never forget the reality of the hazards these public servants face every day.

This past year, Nebraska lost two of our DOT highway workers in the line of duty.

Their names were Mark Wells and Dave Schwartz, and I ask you all to join me in a moment of silence to honor their memories.

Thank you.

One year ago, I stood before you in this magnificent Chamber and pledged to be Governor of all Nebraskans and to build relationships with all of their representatives.

It has been my honor to do so.

We did not agree on every issue.

God forbid we ever do.

But we certainly agreed that our kids are our future and we never ever give up on our kids.

United by those principles, together in 2023 we accomplished much for Nebraska's future.

We took major steps to make sure the state meets its school funding promises to EVERY kid in EVERY district by investing 1 billion dollars into the Education Future Fund to support K-12 education.

This included a critical step forward in foundation aid of 1500 dollars per student and overdue increases in special education funding.

We invested in our workforce by guaranteeing state-funding for our dynamic community college system to help increase access to trade school degrees.

And we passed the Opportunity Scholarships Act, which will ensure that needy students from every corner of our state have a chance at a good education at a school that will be the best fit for them.

To no one's surprise the success of this program is obvious, with thousands

of Nebraska kids already expressing interest in the program.

Several are with us today, including Opportunity Scholarship recipients Nyah Bell from Omaha and Destiny Curtis from Norfolk.

Please join me in welcoming these students to their State Capitol.

Sadly, union bosses and politicians are trying to rip these scholarships away from kids like Nyah and Destiny.

I will fight to protect what we worked so hard to pass last year and call upon this body to do the same.

Last year included major achievements in other areas, too.

We took a big first step toward addressing mental health challenges with the unanimous creation of certified community behavioral health clinics.

2023 was a groundbreaking year for fiscal conservatism, too.

We agreed that state government was spending too much and taxing its people too much.

We tightened our belts and passed a historic fiscal conservative budget with only 2 percent growth.

We agreed that taxing our seniors' social security is not the Nebraska way and ended it.

We finally made our income tax codes competitive with our neighbors by reducing income tax rates to 3.99 percent by 2027.

Agriculture is the heart and soul of Nebraska's economy and we made big investments in its future and infrastructure.

We supported value-added agriculture by increasing consumer ethanol access.

We created and strengthened the Nebraska Broadband Office, which will leverage once-in-a-generation resources to ensure rural Nebraska businesses and farms can connect to a global economy.

And we created the financing tools needed to FINALLY finish our statewide expressway system.

We defended the unborn by restricting abortions beyond 12 weeks.

We will continue to embrace life here in Nebraska with the launch of a yearlong "Culture of Life and Love Initiative"

It will provide resources to expecting moms, especially those in crisis and who need support more than ever.

Much work remains to be done, but this Legislature should be proud of its investments in Nebraska's future. Thank you.

We Nebraskans are a people grounded in values: faith, family, freedom, life, and love.

We are a place of rich opportunity and one of the safest places to live in the world to raise a family.

We have the gift of belief. Among our greatest strengths is that we believe we can compete with anyone, anywhere in the world...and we can.

Blessed with these traits, our economy can weather any storm and emerge stronger.

Our economic diversity is at the foundation of this resilience.

If agriculture slows, our manufacturers keep Nebraskans at work, and vice versa.

Our banking sector—much of which is family-owned and deeply familiar with the businesses and farming operations it serves—provides the stability and liquidity needed for growth.

Because of sound, prudent regulation and a low tax burden, Nebraska has become an insurance capital, attracting strong companies, creating thousands of jobs, and an industry that ranks in the top 3 nationally.

Our public university system has world-class healthcare and biosecurity assets, which attract patients and experts from across the globe.

We are a sophisticated national security hub, hosting STRATCOM at Offutt Air Force Base and providing the nuclear deterrence necessary to secure a troubled world.

To support and grow these incredible economic assets, among our chief goals in state government must be to get government out of the way, reduce regulations and bureaucratic hurdles, and empower people and businesses to thrive.

In our administration, we call this Operation: Clean Out The Closets, in which we try to identify every statutory or regulatory mandate that adds needless costs to healthcare, education, senior care, and businesses of all kinds.

We can do much in the executive branch, but we must partner with you to complete this task and to stay vigilant against new costly mandates.

Together we can get government out of the way and focused again on its core functions: public safety, education, and infrastructure.

This legislative session, though short, holds great promise and opportunity for our state.

There is a tremendous amount of the people's work we must accomplish to make this a better, safer, and stronger place for every Nebraska kid, family, business, and farm.

If we are thoughtful, principled, and keep the interests of all Nebraskans before us, I have no doubt this can be one of the most impactful legislative sessions in our history.

First and foremost, the most important economic issue we face is out of control property taxes.

This crisis is not new.

It has been hurting Nebraska farmers, ranchers, homeowners, and businesses for most of our lifetimes.

High property taxes hurt every Nebraskan in every part of our state and must be fixed NOW.

Property taxes are so out of whack, you don't even need to own property to be impacted.

They are THE MOST regressive tax government imposes on its people.

Fixed income Nebraskans who have lived, worked, and raised families here now face the prospect of being forced out of their homes due to out of control property taxes.

That is unacceptable, but you have several proposals before you to fix it.

Senator Linehan has introduced a hard cap on local spending, which can be overridden only by a vote of the people.

This measure is critical, as only a hard cap will force local government to finally curb spending.

Senator Dover has a bill that will repurpose existing credits so all property taxpayers can benefit from this relief, not just those with the best accountants.

His bill will also add one billion dollars in new property tax credits.

Critically, all of these credits will be front-loaded so that property taxpayers will see them directly on their property tax statements instead of having to go through an onerous process to claim them through their income taxes months later.

Through hard work, collaboration, and setting politics aside, we must find the revenue to support this property tax relief.

Senators von Gillern, Kauth, Meyer, Murman, Albrecht, and Linehan have offered several bills to close several tax loopholes created for special interests at the expense of the middle class.

We have examined over 500 agency cash funds and will transfer 274 million dollars to support property tax relief.

Oh, and by the way, even after that transfer, we still have a total of 2.49 billion dollars in those cash funds.

And that's not even counting the 1.25 billion dollars in our general and cash reserve fund.

It is not the job of government to hoard cash and we must give it back to the people.

We must lower our overall tax burden, widen our tax base, and end the era of special interest tax breaks.

Tax policy must benefit our state as a whole, not whoever has the best lobbyist.

With these changes Nebraskans' property tax bill will be cut by 40 percent THIS YEAR.

I know there is the will, good faith, knowledge, and ability in this chamber to solve it, and I pledge to work with you as long as it takes to get this done.

Nebraska government remains too big at every level.

Since my inauguration, we have been relentless in searching for efficiencies, cutting costs, ending bloated contracts, and working to meet the performance improvement targets this Legislature set out for us last session.

We must do more, however, including by structurally reducing the excessive number of boards and commissions that have built up in Nebraska government over the years.

At last count, we have over two hundred state boards and commissions,

many of which are redundant or oversee activities that can be eliminated.

Senator Brewer has introduced a measure that would eliminate forty-eight— or twenty percent—of our boards and commissions.

I urge the Legislature to make the most of this opportunity to shrink unnecessary government.

For over a century, Nebraska has been the land of opportunity for newcomers.

For years, we have used income tax abatement as our main tool to incentivize companies to come to Nebraska.

This has yielded many success stories and thousands of good, well-paying careers for hard-working Nebraskans.

But we must make sure we are not giving our topsoil away by giving incentives to foreign companies who view Nebraska merely as a conduit for cheap electricity, free water, and cheap labor.

We must align our economic incentives to strengthen not only value-adding new businesses, but also Nebraska-owned, Nebraska-led businesses which have been building our economy for generations.

That is why I am working with Senator Linehan to reform our current incentive package to make Nebraska's incentives competitive in the manufacturing sector for Nebraska-grown companies.

While we want to create and incentivize great careers in Nebraska, we must focus more on recruiting people to The Good Life.

We must retool our incentives to be people focused.

One priority, brought by Senator Brewer, will be strengthening the ranks of our great Nebraska National Guard by exempting its members from state income tax.

While significant, this is the least we can do to honor them for all they do for our state and nation.

Thank you, Colonel Brewer, for your own service and commitment to our armed forces.

We will incentivize new Nebraskans to join our private workforce, too.

Senator Ballard has introduced an innovative bill that will give Nebraska businesses credit for bringing new residents to our state.

Passing this bill will be another investment in our future workforce.

But we must recognize that investing in the twenty-first century workforce is different from what we've done before.

No longer can we focus tax breaks on companies that are takers, not givers, and that do not share our values.

With input from our working group that focused on workforce development over the past six months, we have come forward with proposals in childcare & early childhood education, housing, and general education.

I have partnered with Senator Bostar on Legislation to create a Micro-Center network.

This will allow local communities and businesses to get creative with existing space and resources to meet their childcare needs.

To build the housing we need for our workforce, we should invest an additional 25 million dollars into the Rural Workforce Housing Fund.

All across rural Nebraska, the demand for workforce housing is so great that homes are sold before the doors are even hung.

But it's not just a rural Nebraska issue.

Housing affordability and availability is an issue in our cities too.

Part of the shared problem is local overregulation of affordable housing.

That is why I am partnering with Senator Lowe on lowering the regulatory burden for affordable housing.

A recent UNO study showed that regulation as a component of construction is over 40 thousand dollars higher here than the national average.

This is simply unacceptable and makes no sense.

We must cut the red tape and make homes affordable in Nebraska.

I am partnering with Senator Walz to break down the barriers for potential teachers to enter the workforce.

I ask this question all the time, "who are the top three people that impacted your life the most?"

I guarantee if we took the time for each of you to answer, all 49 of you would have a teacher or a coach in your answer.

I tell you what, if I would have known and understood the impact a coach can have I would have been a coach.

It is one of society's most important professions.

That is why we must allow for reciprocity for teachers coming from another state and simplify how to apply for and receive a teaching certificate.

That way more Nebraskans can easily choose this honorable profession.

Finally, I am working with Senator Linehan to change our incentive credits to direct them toward housing, childcare, and early childhood education for Nebraskans.

Outside this building, state government must do more collectively to align our institutions of higher education to meet the workforce needs of tomorrow.

I look forward to partnering with our University of Nebraska, State College system, and Community College System to launch the One Nebraska initiative, which will eliminate needless duplication and inefficient competition between state-supported schools.

Along with finally harmonizing and strengthening our Regents Scholarship program, we will make sure that our higher education keeps our best and brightest here and trains them to lead Nebraska into the future.

These efforts will stop the brain drain, welcome new Nebraskans, and will help businesses, ranchers and farmers thrive.

Speaking of attracting people to Nebraska, it's tough to do that with nonsense slogans like we're "not for everyone."

We must bring our economic development, people recruitment, and tourism promotion work back under the same leadership, so that they can be better coordinated and run at less administrative expense to the taxpayers.

Senator McDonnell has a carryover bill from last session that would correct a decade-old mistake of separating tourism from economic development.

I urge you to pass this bill so we can again tell the world that The Good Life is for EVERYONE.

Nebraska has become a Mecca for women's athletics, with our women's sports drawing tremendous inspiration and excitement and our female athletes becoming superstars.

Supporting our women athletes takes more than just buying tickets and watching games, though—it also means protecting them in the arena and in the locker room.

Simply put, I don't want my granddaughter to bear the fundamental unfairness of competing against a boy.

And I certainly don't want her to suffer the indignity of showering next to a boy.

And that goes both ways—our boys shouldn't be sharing showers with girls.

This is commonsense stuff that the overwhelming majority of Nebraskans support.

Senator Kauth's Sports and Spaces Act, also carried over from last year, reflects that common sense.

I believe in sports, I believe in women's sports, and I believe in protecting women athletes, and I urge you to pass LB575.

We have also included in our budget proposal funding that will enable us to take advantage of once-in-a-lifetime federal resources designed to develop the new bioeconomy here in Nebraska.

This diverse area of economic activity encompasses everything from sustainable aviation fuel to plastics, nylon, acrylics, and amino acids—all sourced from corn and soybeans and able to be made here in Nebraska.

Nebraska is uniquely well-equipped to be the leader in the new bioeconomy.

Blessed with constantly renewed water resources that are not only a natural buffer against drought but also enable us to grow crops more sustainably than anywhere else, we already produce the building blocks of the new bioeconomy.

This will provide more value for our agricultural products, more research and innovation, and more wealth right here.

We are the envy of the Nation when it comes to our people, our safety, our energy independence and our food security.

Center to it all is our pot of gold — the Ogallala Aquifer — one of the few truly sustainable aquifers in the western hemisphere.

Our water is the key to value-added agriculture — the ability to raise more crops per acre while using less energy.

Looking ahead, even beyond this session, it is critical that we strengthen our water laws to guarantee this priceless resource is not diverted to solve water management failures in other parts of the country.

We must invest to incentivize ag producers to use less water to raise more.

Better measurement tools, more use of technology, and more innovation will enable us to use less water while irrigating more crops right here in Nebraska.

With our water being the envy of the world, we cannot allow adversarial foreign interests the ability to take it.

That is why I am partnering with Senator DeKay to modernize Nebraska's laws on land ownership to prohibit purchases by adversaries.

This bill would tighten up those restrictions and provide a clear directive for enforcement.

Additionally, the bill rescinds exemptions for foreign ownership, such as foreign oil, gas and mineral development in the state.

The world is not the same place as it was in the 1950s, when these laws were last reviewed.

It is imperative to keep enemies of our country from owning land in our state, especially near sensitive military installations.

I am also partnering with Senator Bostar to ban enemies like China, North Korea, and Iran from bidding on any public contract that deals with security related items like IT, communication networks, and infrastructure.

As I close, I want to share with you one of the most incredible moments I experienced during my first year as your Governor.

Early last year, I was privileged to be the first Governor to join a conference of Nebraska's tribal leaders in South Sioux City.

While there, one of the tribal elders shared with me what his grandfather taught him: that whenever his community's leaders gather to make important decisions for their people's future, they are guided by the knowledge that their actions have an impact for seven generations.

That is incredibly powerful and has remained with me ever since.

It has come to guide my own public service and I hope you find meaning in it, too.

It has been roughly seven generations since Nebraska was founded.

Those pioneers poured their blood, sweat, and tears into this land, not only for themselves but for their kids, grandkids, and generations to come.

Their hard work, grit, sacrifice, and optimism is reflected in our people today.

As we do the people's business in the days, weeks, and months ahead, we should never forget that we are working for future generations of Nebraskans, so that they may inherit the same safe, strong, and prosperous Nebraska that we enjoy today.

If we look beyond localized interests and set politics aside, and instead put the best interests of Nebraska as our sole guiding principle, I have no doubt that we can win for our agriculture, our businesses, our taxpayers, our kids, and our future.

Together we can.

Speaking of having an impact for seven generations...thank you to this body for partnering with us to launch a five million dollar investment in mentoring organizations across the state, because while not every kid needs a mentor, every kid deserves one.

The lifetime benefits of mentoring cannot be overstated.

And that is why I am so honored that we are joined today by one of my own mentors, and a dedicated public servant of Nebraska himself, Coach Tom Osborne.

Coach has been a leader in creating mentoring opportunities for thousands of kids and he is an inspiration to us all.

Will you join me in recognizing Coach Osborne and everything he has done for Nebraska.

Thank you for your friendship and partnership in service of the people we collectively represent.

It goes without saying, none of us could answer our calls to serve without the support of our families.

I am certainly grateful for the love and support of my own family, including our First Lady, Suzanne, who is here with us today.

And thanks to you and your families for the sacrifices you and they make for your public service to Nebraska.

God bless you and God bless the great State of Nebraska.

The committee escorted Governor Pillen from the Chamber.

AMENDMENT(S) - Print in Journal

Senator Linehan filed the following amendment to [LB860](#):

[AM2133](#)

1 1. Strike the original section 1 and insert the following new
 2 section:
 3 Section 1. Section 79-1103, Reissue Revised Statutes of Nebraska, is
 4 amended to read:
 5 79-1103 (1)(a) The State Department of Education shall establish and
 6 administer the Early Childhood Education Grant Program. Upon the
 7 effective date of an endowment agreement, administration of the Early
 8 Childhood Education Grant Program with respect to programs for children
 9 from birth to age three shall transfer to the board of trustees. If there

10 is no endowment agreement in effect, the department shall request
11 proposals in accordance with this section for all early childhood
12 education programs from school districts, individually or in cooperation
13 with other school districts or educational service units, working in
14 cooperation with existing nonpublic programs which meet the requirements
15 of subsection (2) of section 79-1104. If there is an endowment agreement
16 in effect, the board of trustees shall administer the Early Childhood
17 Education Grant Program with respect to programs for children from birth
18 to age three pursuant to section 79-1104.02 and the department shall
19 continue to administer the Early Childhood Education Grant Program with
20 respect to other prekindergarten programs pursuant to sections 79-1101 to
21 79-1104.05. All administrative procedures of the board of trustees,
22 including, but not limited to, rules, grant applications, and funding
23 mechanisms, shall harmonize with those established by the department for
24 other prekindergarten programs.

25 (b) The first priority shall be for (i) continuation grants for
26 programs that received grants in the prior school fiscal year and for
27 which the state aid calculation pursuant to the Tax Equity and
1 Educational Opportunities Support Act does not include early childhood
2 education students, in an amount equal to the amount of such grant,
3 except that if the grant was a first-year grant the amount shall be
4 reduced by thirty-three percent, (ii) continuation grants for programs
5 for which the state aid calculation pursuant to the act includes early
6 childhood education students, in an amount equal to the amount of the
7 grant for the school fiscal year prior to the first school fiscal year
8 for which early childhood education students were included in the state
9 aid calculation for the school district's local system minus the
10 calculated state aid amount, and (iii) for school fiscal year 2007-08,
11 continuation grants for programs for which the state aid calculation
12 pursuant to the act includes early childhood education students, but such
13 state aid calculation does not result in the school district receiving
14 any equalization aid, in an amount equal to the amount of the grant
15 received in school fiscal year 2006-07. The calculated state aid amount
16 shall be calculated by multiplying the basic funding per formula student
17 for the school district by the formula students attributed to the early
18 childhood education programs pursuant to the Tax Equity and Educational
19 Opportunities Support Act.

20 (c) The second priority shall be for new grants and expansion grants
21 for programs that will serve at-risk children who will be eligible to
22 attend kindergarten the following school year. New grants may be given
23 for up to three years in an amount up to one-half of the total budget of
24 the program per year. Expansion grants may be given for one year in an
25 amount up to one-half of the budget for expanding the capacity of the
26 program to serve additional children.

27 (d) The third priority shall be for new grants, expansion grants,
28 and continuation grants for programs serving children younger than those
29 who will be eligible to attend kindergarten the following school year.
30 New grants may be given for up to three years in an amount up to one-half
31 the total budget of the program per year. Expansion grants may be given
1 for one year in an amount up to one-half the budget for expanding the
2 capacity of the program to serve additional children. Continuation grants
3 under this priority may be given annually in an amount up to one-half the
4 total budget of the program per year minus any continuation grants
5 received under the first priority.

6 (e) Programs serving children who will be eligible to attend
7 kindergarten the following school year shall be accounted for separately
8 for grant purposes from programs serving younger children, but the two
9 types of programs may be combined within the same classroom to serve
10 multi-age children. Programs that receive grants for school fiscal years
11 prior to school fiscal year 2005-06 to serve both children who will be

12 eligible to attend kindergarten the following school year and younger
13 children shall account for the two types of programs separately for grant
14 purposes beginning with school year 2005-06 and shall be deemed to have
15 received grants prior to school fiscal year 2005-06 for each year that
16 grants were received for the types of programs representing the age
17 groups of the children served.

18 (2) Each program proposal which is approved by the department shall
19 include (a) a planning period, (b) an agreement to participate in
20 periodic evaluations of the program to be specified by the department,
21 (c) evidence that the program will be coordinated or contracted with
22 existing programs, including those listed in subdivision (d) of this
23 subsection and nonpublic programs which meet the requirements of
24 subsection (2) of section 79-1104, (d) a plan to coordinate and use a
25 combination of local, state, and federal funding sources, including, but
26 not limited to, programs for children with disabilities below five years
27 of age funded through the Special Education Act, the Early Intervention
28 Act, funds available through the flexible funding provisions under the
29 Special Education Act, the federal Head Start program, 42 U.S.C. 9831 et
30 seq., the federal Even Start Family Literacy Program, 20 U.S.C. 6361 et
31 seq., Title I of the federal Improving America's Schools Act of 1994, 20
1 U.S.C. 6301 et seq., and child care assistance through the Department of
2 Health and Human Services, (e) a plan to use sliding fee scales and the
3 funding sources included in subdivision (d) of this subsection to
4 maximize the participation of economically and categorically diverse
5 groups and to ensure that participating children and families have access
6 to comprehensive services, (f) the establishment of an advisory body
7 which includes families and community members, (g) the utilization of
8 appropriately qualified staff, (h) an appropriate child-to-staff ratio,
9 (i) appropriate group size, (j) compliance with minimum health and safety
10 standards, (k) appropriate facility size and equipment, (l) a strong
11 family development and support component recognizing the central role of
12 parents in their children's development, (m) developmentally and
13 culturally appropriate curriculum, practices, and assessment, (n)
14 sensitivity to the economic and logistical needs and circumstances of
15 families in the provision of services, (o) integration of children of
16 diverse social and economic characteristics, (p) a sound evaluation
17 component, including at least one objective measure of child performance
18 and progress, (q) continuity with programs in kindergarten and elementary
19 grades, (r) instructional hours that are similar to or less than the
20 instructional hours for kindergarten except that a summer session may be
21 offered, (s) well-defined language development and early literacy
22 emphasis, including the involvement of parents in family literacy
23 activities, (t) a plan for ongoing professional development of staff, and
24 (u) inclusion of children with disabilities as defined in the Special
25 Education Act, all as specified by rules and regulations of the
26 department in accordance with sound early childhood educational practice.

27 (3) The department shall make an effort to fund programs widely
28 distributed across the state in both rural and urban areas.
29 (4) The department, in collaboration with the board of trustees if
30 an endowment agreement is in effect, shall provide a report detailing how
31 grants were distributed, examining the budgetary needs of the programs,
1 and evaluating the programs to the State Board of Education and the
2 Legislature by January 1 of each odd-numbered year. The report submitted
3 to the Legislature shall be submitted electronically. The Education
4 Committee of the Legislature shall hold a public hearing regarding the
5 report, and the Commissioner of Education or a representative of the
6 department designated by the commissioner and all members of the board of
7 trustees shall appear at such hearing. Up to five percent of the total
8 appropriation for the Early Childhood Education Grant Program for grants
9 administered by the department may be reserved by the department for

10 evaluation and technical assistance for the programs. The department
 11 shall maintain a list of the names of the members of the board of
 12 trustees and make such list available on the department's website.
 13 (5) Early childhood education programs, whether established pursuant
 14 to this section or section 79-1104, may be approved for purposes of the
 15 Tax Equity and Educational Opportunities Support Act, expansion grants,
 16 and continuation grants on the submission of a continuation plan
 17 demonstrating that the program will meet the requirements of subsection
 18 (2) of this section and a proposed operating budget demonstrating that
 19 the program will receive resources from other sources equal to or greater
 20 than the sum of any grant received pursuant to this section for the prior
 21 school year plus any calculated state aid as calculated pursuant to
 22 subsection (1) of this section for the prior school year.
 23 (6) The State Board of Education may adopt and promulgate rules and
 24 regulations to implement the Early Childhood Education Grant Program,
 25 except that if there is an endowment agreement in effect, the board of
 26 trustees shall recommend any rules and regulations relating specifically
 27 to the Early Childhood Education Grant Program with respect to programs
 28 for children from birth to age three. It is the intent of the Legislature
 29 that the rules and regulations for programs for children from birth to
 30 age three be consistent to the greatest extent possible with those
 31 established for other prekindergarten programs.

AMENDMENT(S) - Print in Journal

Senator Fredrickson filed the following amendment to LB856:

[AM2158](#)

1 1. Strike the original sections and insert the following new
2 sections:

3 Section 1. Section 68-1206, Revised Statutes Supplement, 2023, is
4 amended to read:
5 68-1206 (1) The Department of Health and Human Services shall
6 administer the program of social services in this state. The department
7 may contract with other social agencies for the purchase of social
8 services at rates not to exceed those prevailing in the state or the cost
9 at which the department could provide those services. The statutory
10 maximum payments for the separate program of aid to dependent children
11 shall apply only to public assistance grants and shall not apply to
12 payments for social services.
13 (2)(a) As part of the provision of social services authorized by
14 section 68-1202, the department shall participate in the federal child
15 care assistance program under 42 U.S.C. 9857 et seq., as such sections
16 existed on January 1, 2023, and provide child care assistance to families
17 with incomes up to (i) one hundred eighty-five percent of the federal
18 poverty level prior to October 1, 2026, or (ii) one hundred thirty
19 percent of the federal poverty level on and after October 1, 2026.
20 (b)(i) (b) As part of the provision of social services authorized by
21 this section and section 68-1202, the department shall participate in the
22 federal Child Care Subsidy program. A child care provider seeking to
23 participate in the federal Child Care Subsidy program shall comply with
24 the criminal history record information check requirements of the Child
25 Care Licensing Act. In determining ongoing eligibility for this program,
26 ten percent of a household's gross earned income shall be disregarded
27 after twelve continuous months on the program and at each subsequent
1 redetermination. In determining ongoing eligibility, if a family's income
2 exceeds one hundred eighty-five percent of the federal poverty level
3 prior to October 1, 2026, or one hundred thirty percent of the federal
4 poverty level on and after October 1, 2026, the family shall receive
5 transitional child care assistance through the remainder of the family's
6 eligibility period or until the family's income exceeds eighty-five
7 percent of the state median income for a family of the same size as
8 reported by the United States Bureau of the Census, whichever occurs
9 first. When the family's eligibility period ends, the family shall
10 continue to be eligible for transitional child care assistance if the
11 family's income is below two hundred percent of the federal poverty level
12 prior to October 1, 2026, or one hundred eighty-five percent of the
13 federal poverty level on and after October 1, 2026. The family shall
14 receive transitional child care assistance through the remainder of the
15 transitional eligibility period or until the family's income exceeds
16 eighty-five percent of the state median income for a family of the same
17 size as reported by the United States Bureau of the Census, whichever
18 occurs first. The amount of such child care assistance shall be based on
19 a cost-shared plan between the recipient family and the state and shall
20 be based on a sliding-scale methodology. A recipient family may be
21 required to contribute a percentage of such family's gross income for
22 child care that is no more than the cost-sharing rates in the
23 transitional child care assistance program as of January 1, 2015, for
24 those no longer eligible for cash assistance as provided in section
25 68-1724.
26 (ii) A household shall have all earned and unearned income excluded
27 from its eligibility determination if the applicant or adult household
28 member is:
29 (A)(I) Self-employed at a licensed child care program as described
30 in section 71-1911, (II) employed at a licensed child care program as
31 described in section 71-1911, (III) employed at a federal Head Start
1 program, as described in 42 U.S.C. 9831 et seq., or (IV) employed at an
2 Early Head Start program, as described in 42 U.S.C. 9840a;
3 (B) Verified for a minimum of twenty hours of employment per week;
4 and

5 (C) Listed in the Nebraska Early Childhood Professional Record
6 System as described in section 71-1962.
7 (iii) Child care programs with an eligible household described in
8 subdivision (2)(b)(ii)(A)(II) or (2)(b)(ii)(A)(III) of this section shall
9 make reasonable accommodations so that the eligible applicant or adult
10 household member is not a primary caregiver to such applicant's or adult
11 household member's child. If reasonable accommodation cannot be made, the
12 department shall allow the applicant or adult household member to receive
13 child care assistance for the applicant's or adult household member's
14 child including when the applicant or adult household member is the
15 primary caregiver for such child.
16 (iv) An eligible household described in subdivision (2)(b)(ii)(A)(I)
17 of this section may enroll the household member's child in a child care
18 program other than the household member's child care program to receive
19 child care assistance.
20 (v) Nothing in subdivision (2)(b)(ii) of this section shall preclude
21 a household from meeting additional eligibility requirements of the
22 federal Child Care Subsidy program.
23 (vi) The department shall submit a report electronically to the
24 Legislature on December 1 of each year that includes the monthly number
25 of enrolled children and households by county and program type for
26 households eligible pursuant to subdivision (2)(b)(ii) of this section.
27 (c) For the period beginning July 1, 2021, through September 30,
28 2026, funds provided to the State of Nebraska pursuant to the Child Care
29 and Development Block Grant Act of 1990, 42 U.S.C. 9857 et seq., as such
30 act and sections existed on January 1, 2023, shall be used to pay the
31 costs to the state resulting from the income eligibility changes made in
1 subdivisions (2)(a) and (b) of this section by Laws 2021, LB485. If the
2 available amount of such funds is insufficient to pay such costs, then
3 funds provided to the state for the Temporary Assistance for Needy
4 Families program established in 42 U.S.C. 601 et seq. may also be used.
5 No General Funds shall be used to pay the costs to the state, other than
6 administration costs, resulting from the income eligibility changes made
7 in subdivisions (2)(a) and (b) of this section by Laws 2021, LB485, for
8 the period beginning July 1, 2021, through September 30, 2026.
9 (d) The Department of Health and Human Services shall collaborate
10 with a private nonprofit organization with expertise in early childhood
11 care and education for an independent evaluation of the income
12 eligibility changes made in subdivisions (2)(a) and (b) of this section
13 by Laws 2021, LB485, if private funding is made available for such
14 purpose. The evaluation shall be completed by July 1, 2024, and shall be
15 submitted electronically to the department and to the Health and Human
16 Services Committee of the Legislature.
17 (3) In determining the rate or rates to be paid by the department
18 for child care as defined in section 43-2605, the department shall adopt
19 a fixed-rate schedule for the state or a fixed-rate schedule for an area
20 of the state applicable to each child care program category of provider
21 as defined in section 71-1910 which may claim reimbursement for services
22 provided by the federal Child Care Subsidy program, except that the
23 department shall not pay a rate higher than that charged by an individual
24 provider to that provider's private clients. The schedule may provide
25 separate rates for care for infants, for children with special needs,
26 including disabilities or technological dependence, or for other
27 individual categories of children. The schedule may also provide tiered
28 rates based upon a quality scale rating of step three or higher under the
29 Step Up to Quality Child Care Act. The schedule shall be effective on
30 October 1 of every year and shall be revised annually by the department.
31 Sec. 2. Original section 68-1206, Revised Statutes Supplement,
1 2023, is repealed.

17 levy of one-half cent on each one hundred dollars of taxable property
18 subject to the levy for elementary learning center facility leases, for
19 remodeling of leased elementary learning center facilities, and for up to
20 fifty percent of the estimated cost for focus school or program capital
21 projects approved by the learning community coordinating council pursuant
22 to section 79-2111.

23 (g) For each fiscal year, learning communities may levy a maximum
24 levy of one and one-half cents on each one hundred dollars of taxable
25 property subject to the levy for early childhood education programs for
26 children in poverty, for elementary learning center employees, for
27 contracts with other entities or individuals who are not employees of the
28 learning community for elementary learning center programs and services,
29 and for pilot projects, except that no more than ten percent of such levy
30 may be used for elementary learning center employees.

31 (3) For each fiscal year through fiscal year 2023-24, community
1 college areas may levy the levies provided in subdivisions (2)(a) through
2 (c) of section 85-1517, in accordance with the provisions of such
3 subdivisions. For fiscal year 2024-25 and each fiscal year thereafter,
4 community college areas may levy the levies provided in subdivisions (2)
5 (a) and (b) of section 85-1517, in accordance with the provisions of such
6 subdivisions. A community college area may exceed the levy provided in
7 subdivision (2)(a) of section 85-1517 by the amount necessary to generate
8 sufficient revenue as described in section 85-1543 or 85-2238. A
9 community college area may exceed the levy provided in subdivision (2)(b)
10 of section 85-1517 by the amount necessary to retire general obligation
11 bonds assumed by the community college area or issued pursuant to section
12 85-1515 according to the terms of such bonds or for any obligation
13 pursuant to section 85-1535 entered into prior to January 1, 1997.

14 (4)(a) Natural resources districts may levy a maximum levy of four
15 and one-half cents per one hundred dollars of taxable valuation of
16 property subject to the levy.

17 (b) Natural resources districts shall also have the power and
18 authority to levy a tax equal to the dollar amount by which their
19 restricted funds budgeted to administer and implement ground water
20 management activities and integrated management activities under the
21 Nebraska Ground Water Management and Protection Act exceed their
22 restricted funds budgeted to administer and implement ground water
23 management activities and integrated management activities for FY2003-04,
24 not to exceed one cent on each one hundred dollars of taxable valuation
25 annually on all of the taxable property within the district.

26 (c) In addition, natural resources districts located in a river
27 basin, subbasin, or reach that has been determined to be fully
28 appropriated pursuant to section 46-714 or designated as overappropriated
29 pursuant to section 46-713 by the Department of Natural Resources shall

30 also have the power and authority to levy a tax equal to the dollar
31 amount by which their restricted funds budgeted to administer and
1 implement ground water management activities and integrated management
2 activities under the Nebraska Ground Water Management and Protection Act
3 exceed their restricted funds budgeted to administer and implement ground
4 water management activities and integrated management activities for
5 FY2005-06, not to exceed three cents on each one hundred dollars of
6 taxable valuation on all of the taxable property within the district for
7 fiscal year 2006-07 and each fiscal year thereafter through fiscal year
8 2017-18.

9 (5) Any educational service unit authorized to levy a property tax
10 pursuant to section 79-1225 may levy a maximum levy of one and one-half
11 cents per one hundred dollars of taxable valuation of property subject to
12 the levy.

13 (6)(a) Incorporated cities and villages which are not within the
14 boundaries of a municipal county may levy a maximum levy of forty-five
15 cents per one hundred dollars of taxable valuation of property subject to
16 the levy plus an additional five cents per one hundred dollars of taxable
17 valuation to provide financing for the municipality's share of revenue
18 required under an agreement or agreements executed pursuant to the
19 Interlocal Cooperation Act or the Joint Public Agency Act. The maximum
20 levy shall include amounts levied to pay for sums to support a library
21 pursuant to section 51-201, museum pursuant to section 51-501, visiting
22 community nurse, home health nurse, or home health agency pursuant to
23 section 71-1637, or statue, memorial, or monument pursuant to section
24 80-202.

25 (b) Incorporated cities and villages which are within the boundaries
26 of a municipal county may levy a maximum levy of ninety cents per one
27 hundred dollars of taxable valuation of property subject to the levy. The
28 maximum levy shall include amounts paid to a municipal county for county
29 services, amounts levied to pay for sums to support a library pursuant to
30 section 51-201, a museum pursuant to section 51-501, a visiting community
31 nurse, home health nurse, or home health agency pursuant to section
1 71-1637, or a statue, memorial, or monument pursuant to section 80-202.

2 (7) Sanitary and improvement districts which have been in existence
3 for more than five years may levy a maximum levy of forty cents per one
4 hundred dollars of taxable valuation of property subject to the levy, and
5 sanitary and improvement districts which have been in existence for five
6 years or less shall not have a maximum levy. Unconsolidated sanitary and
7 improvement districts which have been in existence for more than five
8 years and are located in a municipal county may levy a maximum of eighty-
9 five cents per hundred dollars of taxable valuation of property subject
10 to the levy.

11 (8) Counties may levy or authorize a maximum levy of fifty cents per
12 one hundred dollars of taxable valuation of property subject to the levy,
13 except that five cents per one hundred dollars of taxable valuation of
14 property subject to the levy may only be levied to provide financing for
15 the county's share of revenue required under an agreement or agreements
16 executed pursuant to the Interlocal Cooperation Act or the Joint Public
17 Agency Act. The maximum levy shall include amounts levied to pay for sums
18 to support a library pursuant to section 51-201 or museum pursuant to
19 section 51-501. The county may allocate up to fifteen cents of its
20 authority to other political subdivisions subject to allocation of
21 property tax authority under subsection (1) of section 77-3443 and not
22 specifically covered in this section to levy taxes as authorized by law
23 which do not collectively exceed fifteen cents per one hundred dollars of
24 taxable valuation on any parcel or item of taxable property. The county
25 may allocate to one or more other political subdivisions subject to
26 allocation of property tax authority by the county under subsection (1)
27 of section 77-3443 some or all of the county's five cents per one hundred

28 dollars of valuation authorized for support of an agreement or agreements
 29 to be levied by the political subdivision for the purpose of supporting
 30 that political subdivision's share of revenue required under an agreement
 31 or agreements executed pursuant to the Interlocal Cooperation Act or the
 1 Joint Public Agency Act. If an allocation by a county would cause another
 2 county to exceed its levy authority under this section, the second county
 3 may exceed the levy authority in order to levy the amount allocated.
 4 (9) Municipal counties may levy or authorize a maximum levy of one
 5 dollar per one hundred dollars of taxable valuation of property subject
 6 to the levy. The municipal county may allocate levy authority to any
 7 political subdivision or entity subject to allocation under section
 8 77-3443.

9 (10) Beginning July 1, 2016, rural and suburban fire protection
 10 districts may levy a maximum levy of ten and one-half cents per one
 11 hundred dollars of taxable valuation of property subject to the levy if
 12 (a) such district is located in a county that had a levy pursuant to
 13 subsection (8) of this section in the previous year of at least forty
 14 cents per one hundred dollars of taxable valuation of property subject to
 15 the levy or (b) such district had a levy request pursuant to section
 16 77-3443 in any of the three previous years and the county board of the
 17 county in which the greatest portion of the valuation of such district is
 18 located did not authorize any levy authority to such district in such
 19 year.

20 (11) A regional metropolitan transit authority may levy a maximum
 21 levy of ten cents per one hundred dollars of taxable valuation of
 22 property subject to the levy for each fiscal year that commences on the
 23 January 1 that follows the effective date of the conversion of the
 24 transit authority established under the Transit Authority Law into the
 25 regional metropolitan transit authority.

26 (12) In addition to the specific levy limits provided in this
 27 section, if the total taxable valuation of property in a political
 28 subdivision exceeds the total taxable valuation from the prior year, then
 29 such political subdivision's levy shall be no more than the levy
 30 necessary to raise the exact same amount of property taxes as was raised
 31 by such political subdivision in the prior year.

1 (13) ~~(12)~~ Property tax levies (a) for judgments, except judgments or
 2 orders from the Commission of Industrial Relations, obtained against a
 3 political subdivision which require or obligate a political subdivision
 4 to pay such judgment, to the extent such judgment is not paid by
 5 liability insurance coverage of a political subdivision, (b) for
 6 preexisting lease-purchase contracts approved prior to July 1, 1998, (c)
 7 for bonds as defined in section 10-134 approved according to law and
 8 secured by a levy on property except as provided in section 44-4317 for
 9 bonded indebtedness issued by educational service units and school
 10 districts, (d) for payments by a public airport to retire interest-free
 11 loans from the Division of Aeronautics of the Department of
 12 Transportation in lieu of bonded indebtedness at a lower cost to the
 13 public airport, and (e) to pay for cancer benefits provided on or after
 14 January 1, 2022, pursuant to the Firefighter Cancer Benefits Act are not
 15 included in the levy limits established by this section.

16 ~~(14)~~ ~~(13)~~ The limitations on tax levies provided in this section are
 17 to include all other general or special levies provided by law.
 18 Notwithstanding other provisions of law, the only exceptions to the
 19 limits in this section are those provided by or authorized by sections
 20 77-3442 to 77-3444.

21 ~~(15)~~ ~~(14)~~ Tax levies in excess of the limitations in this section
 22 shall be considered unauthorized levies under section 77-1606 unless
 23 approved under section 77-3444.

24 ~~(16)~~ ~~(15)~~ For purposes of sections 77-3442 to 77-3444, political
 25 subdivision means a political subdivision of this state and a county

26 agricultural society.
27 (17) (46) For school districts that file a binding resolution on or
28 before May 9, 2008, with the county assessors, county clerks, and county
29 treasurers for all counties in which the school district has territory
30 pursuant to subsection (7) of section 79-458, if the combined levies,
31 except levies for bonded indebtedness approved by the voters of the
1 school district and levies for the refinancing of such bonded
2 indebtedness, are in excess of the greater of (a) one dollar and twenty
3 cents per one hundred dollars of taxable valuation of property subject to
4 the levy or (b) the maximum levy authorized by a vote pursuant to section
5 77-3444, all school district levies, except levies for bonded
6 indebtedness approved by the voters of the school district and levies for
7 the refinancing of such bonded indebtedness, shall be considered
8 unauthorized levies under section 77-1606.
9 Sec. 2. Original section 77-3442, Revised Statutes Supplement,
10 2023, is repealed.

STATE OF THE JUDICIARY

Mr. President, Mr. Speaker, and Members of the Legislature.

Thanks to all of you, particularly Speaker Arch, for inviting me to address you this morning. It is always an honor for me to report on the annual accomplishments of our Judicial Branch and discuss our upcoming plans with you.

With me in the Chamber today are my fellow Justices:

Justice Lindsey Miller-Lerman of Omaha
Justice William Cassel of O'Neill
Justice Stephanie Stacy of Lincoln
Justice Jeff Funke of Nebraska City
Justice Jonathan Papik of Omaha, and
Justice John Freudenberg of Rushville

Today, I will speak to you about our excellent judicial branch judges and support staff, problem-solving courts, probation, language interpreter services, the Office of Public Guardian, and our much-needed technology upgrades.

Judicial Branch Workforce

I opened this address last year by discussing staffing shortages we were experiencing across our Judicial Branch. I am happy to report that while we still have more than 100 vacancies statewide out of over 1,600 employees, we now exceed pre-pandemic staffing levels. Our turnover rate has dropped to just over 5%, and our vacancy rate branch-wide is less than 8%. These are significant improvements. I highlight this because these improvements have not occurred by accident.

First and foremost, I sincerely thank this body for supporting our efforts directed at making Nebraska's Judicial Branch a competitive employer in the job market. Those efforts over the past three years included a pair of classification and compensation studies. The purpose of these studies was to find how Judicial Branch employee salaries compared to both the public and private sectors. Your approval of salary increases based on these studies means we are now competitive in most job markets. I remind you, however, that the increases you approved have not yet been included in our base budget.

In addition to salary increases, we have expanded our recruiting efforts by participating in career fairs at colleges, high schools, and even junior high schools across the State. Because of information gathered during community listening sessions, we've also increased recruitment by cooperation with entities like the Urban League of Omaha. And we have targeted expansion of our internship programs as well as job shadowing opportunities. We have also expanded utilization of social media as a recruiting tool to highlight the great work being done in the Branch.

National Awards

I now especially call your attention to some exemplary national achievements in 2023 by judges and probation staff.

This past November, now-retired District Court Judge Jim Doyle of Lexington was given the William Rehnquist Award for Judicial Excellence. There is no greater recognition a trial court judge in America can receive. Chief Justice John Roberts of the United States Supreme Court presented the award to Judge Doyle in front of 200 honored guests and dignitaries in Washington, DC.

At that presentation I was pleased to highlight Judge Doyle's contributions to the citizens of Nebraska, especially those in rural communities. During his more than two decades of judicial service, Judge Doyle went to great lengths to improve interpreter services, establish problem-solving courts, and increase public and media access to court proceedings.

Judge Doyle established Nebraska's first predominantly rural drug court in 2006 and served as chair of the Nebraska Supreme Court's Committee on Problem-Solving Courts until his retirement. Under his guidance, problem-solving courts were established in every judicial district in Nebraska. During the pandemic, Judge Doyle also began Nebraska's only judicial YouTube channel, broadcasting his court proceedings to the public.

We all owe a debt of gratitude to Judge Doyle and his dedication to public service.

I also congratulate Court of Appeals Judge Frankie Moore of North Platte who has been elected by her fellow Appeals Court Judges across America as the current Vice President and President-elect of the Council of Chief Judges of the State Courts of Appeal. Judge Moore has served on the Nebraska Court of Appeals since January 2000, and was the chief judge from 2014 to 2020. She is also a member of the Nebraska Access to Justice Commission and serves as chair of the Self-Represented Litigation Committee. In 2015, Judge Moore received the "Distinguished Judge for Service to Community" award from the Nebraska Supreme Court.

Congratulations also to Kari Rumbaugh, Deputy Administrator of the Juvenile Probation Services Division. Ms. Rumbaugh was selected as the only probation representative nationally to testify as an expert on juvenile probation on a panel of youth justice professionals before the Federal Coordinating Council for Juvenile Justice and Delinquency Prevention in Washington, DC. Deputy Rumbaugh's testimony focused on how the Council can enhance coordination regarding the prevention of youth recidivism.

I'm also happy to report that Nebraska Probation was selected by the Columbia University Emerging Adult Justice Project as one of three innovation sites in the United States. The intent of the 2½ year pilot project is to improve case management strategies and outcomes for young adult offenders, ages 18 to 25.

Probation

I now more generally report on probation. Adult Probation provides community supervision for over 16,000 individuals in all 93 Nebraska counties. Probation officers assist, direct, and motivate individuals to avoid incarceration and live productive lives. Probation includes restitution, community service, drug testing, and mental health treatments.

Probation also administers swift and certain sanctions for violation of court orders. Probation officers are highly trained to assess the needs of individuals to better address their rehabilitation.

Statewide, Nebraska Probation currently works with over 1,500 individual service providers and over 500 service provider agencies. Our behavioral health partners provide an essential component required for the successful rehabilitation of probationers. However, there is still a significant shortage of new providers and reimbursement rates have not kept pace with the cost of these services.

Nebraska Probation recently established a partnership with the Nebraska Department of Labor to provide employment programming in our 17 community reporting centers. This important cooperation will assist probation with obtaining and maintaining employment to be successful citizens.

Likewise, in January 2022, this Legislature funded the expansion of the Young Adult Problem-Solving Court in Douglas County to include the creation of a new employment coordinator position. This innovative approach was designed to better equip young adults with the job skills, resources, and employment connections needed to secure meaningful employment within the Omaha community. This includes the recruitment of over 180 employers who are willing to hire Young Adult Problem-Solving Court participants. Success is demonstrated by a 13% decrease in unemployment for individuals in the Young Adult Problem Solving Court.

In a written testimonial, a Young Adult Court graduate noted, “[I]t’s absolutely amazing that you have a system that gives young people like myself the chance to do something better.”

Nebraska Probation continues to be cost effective for taxpayers. The average cost of incarceration in Nebraska is \$41,000 per person per year, compared to the average cost of probation, which is \$3,500 per person per year. Probation is the taxpayers’ friend.

Problem-Solving Courts

I will now discuss in more detail problem-solving courts. Nebraska problem-solving courts have also proven to be a cost-effective alternative for diverting individuals from our jails and prisons through judicial interaction, intensive community supervision, and rehabilitation. Nearly 1,600 individuals participated in 33 problem-solving courts during the last fiscal year.

Thanks to your support, more individuals in Nebraska have been provided access to problem-solving courts. Through the creation of new courts and added capacity to existing problem-solving courts, there has been a 27% increase in problem-solving court participation since 2020.

At your request, recent problem-solving court expansion efforts include Nebraska’s fourth Veterans Treatment Court serving Sarpy and Cass Counties, and a new Adult Drug Court in the 5th Judicial District serving Platte County. Also, the drug court in Saunders County has been doubled in size.

However, a newly completed needs assessment determined that only 5% of individuals eligible for problem-solving courts in Nebraska are

being served. With the correct infrastructure in place, problem-solving courts are positioned to be an ongoing and viable alternative to prison. The Judicial Branch is committed to working with you to continue further problem-solving court expansion. I remind you that the annual average cost of participants involved in a problem-solving court is approximately \$4,400. Like probation, each problem-solving court is the taxpayers' friend.

Juvenile Probation

Next, I will discuss juvenile probation. Please note the following accomplishments and concerns.

First, the Juvenile Justice System Enhancement Initiative continued this year with the completion of a statewide system assessment and receipt of a final report. The report emphasized that Nebraska's juvenile probation is positioned as a positive leader in juvenile justice system practices. The Nebraska Supreme Court provided an opportunity for Nebraskans to submit public comments regarding the findings.

Second, reflecting a post-pandemic increase in delinquency filings, there has been a 25% increase in youth placed on probation in fiscal year 2023 as compared to the previous year. Over the same period, there was also an increase of more than 300 predisposition investigations completed by probation officers, providing comprehensive reports and recommendations to courts across the state. Even with this increase, juvenile probation has been able to maintain a low 19% recidivism rate over the past two years.

Third, increasing access to essential services for youth continued as a focus, especially in rural areas of the state. Although service availability continues to be a challenge, we successfully supported the opening of a new emergency shelter in Maxwell, the recruitment of new foster homes in Scottsbluff, and the expansion of a judge-led mentoring project in Saline and Jefferson Counties.

Fourth, there remains, however, a major lack of detention facilities for delinquent juveniles in Nebraska. There are currently only four such detention facilities in the state. They are located in Sarpy, Douglas, Lancaster, and Madison Counties. There are no juvenile detention facilities west of this building, and counties have no incentive to fund them. We are forced to pay Iowa, Kansas, and Wyoming in order to handle our juvenile detention needs.

Office of Public Guardian

I now turn to the Office of Public Guardian. This Legislature created the Office of Public Guardian and placed it in the Judicial Branch in 2015 because of the lack of guardians in Nebraska to serve vulnerable, incapacitated adults. These are mostly elderly, mentally ill, and medically fragile individuals who lack cognitive capacity and are susceptible to financial exploitation and neglect. Approximately 86% of the wards of the Office of Public Guardian need mental health services.

The Office of Public Guardian was created to serve as guardian of last resort for individuals when no one else is available. The demand for assistant public guardians, however, far exceeds our

current capacity to respond. The Office of Public Guardian has had a waiting list since 2018.

Fortunately, there has been a core group of assistant guardians who have persevered, serving these citizens with commitment, sacrifice, and compassion through the pandemic and chronic staff shortages. Largely because of the aforementioned salary increases, staff shortages have been reversed, but the demand for expanding the number of assistant public guardians continues.

Language Access (Trial Court Services)

I now turn to our Language Access Program, which recruits, trains, and certifies language interpreters. And which, of course, coordinates the appointment of qualified interpreters to help limited English proficient, deaf, and hard of hearing individuals understand their court proceedings and probation services, regardless of what language they speak. Conversely, interpreters help judges, lawyers, witnesses, juries, and court staff understand non-English speaking participants who appear in Nebraska courtrooms and probation offices on a daily basis.

Fifty years ago, this Legislature commanded by statute that we provide language access to everyone who appears in our courts. Last summer we celebrated the passage of that 1973 legislation in Colfax County, where we frequently utilize language interpreters.

On a statewide basis, we used interpreters in 69 different languages in 2023, including three indigenous languages we had never used before. Those are:

- Tzotzil (zot-zil) -- a Mayan language from Chiapas, Mexico, which is spoken by only 50,000 people;
- Zapotec (za-po-tec) -- a language of which there are approximately 450,000 speakers, most of whom live in the Mexican states of Oaxaca and Veracruz; and
- Chuj (chew) – a language which is spoken by approximately only 43,000 people – 40,000 in Guatemala and 3,000 in Mexico.

There are only a handful of interpreters in the United States that speak these rare indigenous languages. But by using language line and cooperating with other states, we were able to provide the necessary interpreters when needed.

It's not just an increase in rare indigenous languages that we're experiencing, but an overall growth in language diversity. As an example, in February 2023, the Lancaster County Truancy Diversion Court served 12 families with a total of 6 different languages in a single hearing (2 Arabic, 1 Dinka, 1 Farsi, 3 Kurdish, 1 Nuer, and 4 Spanish). We expect the number of limited English proficient, deaf, and hard of hearing court and probation users to steadily increase in the coming years. We are asking for increased funding for our language access initiatives.

Technology

Finally, I will discuss technology. I have regularly reported on the growing importance technology plays for the courts and its programs. Today

more than ever our reliance on technology in providing access to justice is tantamount to our success. We could not have kept our courts functioning during the pandemic without electronic filing, Zoom hearings, and other technological advancements.

First of all, like this legislative branch did years ago, we are establishing a branch-specific information technology system for the courts. We have moved away from the Information Technology services previously provided by the Executive Branch Office of Chief Information Officer into our own, self-maintained domain at NEJudicial.gov. We also continue to relieve more counties of the financial burden of overseeing court IT functions. A self-contained IT infrastructure is more amenable to needed ongoing changes and will allow us to more closely monitor and address security threats.

Secondly, in the coming months we will complete technological upgrades, normally paid for by counties, in every courtroom across the State. We are outfitting each courtroom with state-of-the-art equipment which will increase access and improve user experiences. This includes a system for enhancing the ability for hearing-impaired individuals to understand court proceedings.

Next, we continue to refine our e-filing efforts. We have enhanced the software used to accomplish this, including software for the tracking of continuing legal education and Bar Exam enrollment systems, and we are completing development of a cloud-based exhibits repository.

For our providers serving probation, we have also implemented an improved service provider information management system which streamlined fee-for-service voucher processing. And we are in the process of moving our court and probation case management systems into the cloud and away from very outdated server-based data-storage systems.

Most importantly, however, I call your attention to the need to upgrade our current case management system for both efficiency and the ability to provide you and others with requested data information, and especially for cyber security purposes. Our current system was built in-house. No consultants, no outside vendors, and with only marginal use of tax dollars. It was rolled out in 1993 using COBAL programming code and an AS400 operating system. The system is held together with baling wire and bubble gum. A 30-plus-year-old case management system is not adequate to meet current and future court demands.

The Judicial Branch has experienced significant programmatic growth in the last decade. As noted, the number of problem-solving courts has grown exponentially. Juvenile justice reform, justice reinvestment, post-release supervision, and the additions of the Offices of Dispute Resolution and Public Guardian have all had a dramatic impact on the Judicial Branch. These services operate from separate information management systems or within our outdated systems.

This legislative body, along with many court users, regularly requests data reports we are simply unable to produce. The current system does not collect such information, it does not store such information, and we cannot provide such information.

Again, it is vital to our success that our unified case management system be upgraded to meet our future needs as well as your data requests. We look forward to partnership and collaboration as we move our courts into the 21st Century. While costly, this is a necessary investment for our future, your future, and our state's future.

Kansas Cyber Attack

I especially emphasize, however, our need to upgrade protection for online records. The Court maintains a great deal of personal information within our case management system. Much like banks, retail outlets, and health care providers, we handle a large amount of confidential information online – including bank account numbers, social security numbers, credit card information, and other financial details. Additionally, we store information on paternity and child custody, as well as criminal case data on sexual assaults of both adults and children.

This past October, the Kansas court system suffered a foreign cyberattack that forced officials to completely shut down their electronic system. The attackers had access to all of the confidential information I just summarized. Public access to documents and online filing for lawyers had to be suspended for months after the attack. Lawyers reverted to using the old paper system to file their cases, and anyone seeking public records had to visit their local courthouses or the State Capitol. A ransom was demanded to restart the system. The ransom was not paid, but the attack nevertheless cost Kansans millions of tax dollars and user fee expenses.

Kansas serves as a warning for the rest of us. If the Kansas Supreme Court fell victim to a sophisticated foreign cyberattack, without needed upgrades we must consider ourselves equally vulnerable.

Conclusion

On that cautionary note, I thank you for this opportunity to speak with you today. I look forward to our continuing cooperation with you and our executive branch friends in serving all Nebraska citizens.

The committee escorted the Chief Justice from the Chamber.

 7 taken by any taxpayer or by any relative of such child. Proceedings for

5 of the federal poverty level at the time the family becomes ineligible
6 for the aid to dependent children program. Payments shall be made in five
7 monthly payments, each equal to one-fifth of the aid to dependent
8 children payment standard for the family's size at the time the family
9 becomes ineligible for the aid to dependent children program. If during
10 the five-month period, (A) the family's earnings exceed one hundred
11 eighty-five percent of the federal poverty level, (B) the family members
12 are no longer working, (C) the family ceases to be Nebraska residents,
13 (D) there is no longer a minor child in the family's household, or (E)

15 program, the family shall become ineligible for any remaining
16 transitional benefits under this subdivision;

17 (ii) Child care as provided in subdivision (1)(c) of section
18 68-1724; and

30 (c) Medical support shall include all expenses associated with the
31 birth of a child, cash medical support as defined in section 42-369,
1 health care coverage as defined in section 44-3,144, and medical and

5 (e) State Disbursement Unit shall be defined as provided in section

7 (f) Support shall be defined as provided in section 43-3313.

8 Sec. 2. Section 43-512.07, Reissue Revised Statutes of Nebraska, is
9 amended to read:

10 43-512.07 (1) Any action, payment, aid, or assistance listed in this
11 subsection shall constitute an assignment by operation of law to the
12 Department of Health and Human Services of any right to spousal or
13 medical support, when ordered by the court, and to child support, whether

14 or not ordered by the court, which a person may have in his or her own
 15 behalf or on behalf of any other person for whom such person receives
 16 such payments, aid, or assistance:

17 (a) Application for and acceptance of one or more aid to dependent
 18 children payments by a parent, another relative, or a custodian;

19 (b) Receipt of aid by or on behalf of any dependent child as defined
 20 in section 43-504; or

21 (c) Receipt of aid from child welfare funds.

22 The assignment under this section is the right to support payments
 23 that become due while the person is receiving payments, aid, or
 24 assistance listed in this subsection. The department shall be entitled to
 25 retain such child, spousal, or other support up to the amount of
 26 payments, aid, or assistance provided to a recipient. For purposes of
 27 this section, the right to receive child support shall belong to the
 28 child and the assignment shall be effective as to any such support even
 29 if the recipient of the payments, aid, or assistance is not the same as
 30 the payee of court-ordered support.

31 (2) After notification of the State Disbursement Unit receiving the
 1 child, spousal, or other support payments made pursuant to a court order
 2 that the person for whom such support is ordered is a recipient of
 3 payments, aid, or assistance listed in subsection (1) of this section,
 4 the department shall also give notice to the payee named in the court
 5 order at his or her last-known address.

6 (3) Upon written or other notification from the department or from
 7 another state of such assignment of child, spousal, or other support
 8 payments, the State Disbursement Unit shall transmit the support payments
 9 received to the department or the other state without the requirement of
 10 a subsequent order by the court. The State Disbursement Unit shall
 11 continue to transmit the support payments for as long as the payments,
 12 aid, or assistance listed in subsection (1) of this section continues.

13 (4) Any court-ordered child, spousal, or other support remaining
 14 unpaid for the months during which such payments, aid, or assistance was
 15 made shall constitute a debt and a continuing assignment at the
 16 termination of payments, aid, or assistance listed in subsection (1) of
 17 this section, collectible by the department or other state as
 18 reimbursement for such payments, aid, or assistance. The continuing
 19 assignment shall only apply to support payments made during a calendar
 20 period which exceed the specific amount of support ordered for that
 21 period. When payments, aid, or assistance listed in subsection (1) of
 22 this section have ceased and upon notice by the department or the other
 23 state, the State Disbursement Unit shall continue to transmit to the
 24 department or the other state any support payments received in excess of
 25 the amount of support ordered for that specific calendar period until
 26 notified by the department or the other state that the debt has been paid
 27 in full.

28 (5) Beginning January 1, 2025, the department shall pay to the
 29 recipient of any payments, aid, or assistance listed in subdivision (1)
 30 (a) of this section, the current child support collected pursuant to the
 31 assignment. Such payments shall not be considered income for purposes of
 1 calculating a recipient's eligibility for assistance. The department

1 1. Strike the original sections and insert the following new

2 sections:

3 Section 1. Sections 1 to 9 of this act shall be known and may be

4 cited as the Hospital Quality Assurance and Access Assessment Act.

5 Sec. 2. For purposes of the Hospital Quality Assurance and Access

6 Assessment Act:

7 (1) Assessment means a quality assurance and access assessment

8 imposed on hospitals pursuant to section 3 of this act;

9 (2) Department means the Division of Medicaid and Long-Term Care

10 Services of the Department of Health and Human Services;

11 (3) Hospital means a hospital as defined in section 71-419 or a

12 rural emergency hospital as defined in section 71-477;

13 (4) Medical assistance program means the medical assistance program

14 established pursuant to the Medical Assistance Act; and

15 (5) Net patient revenue means the revenue paid to a hospital for
 16 patient care, room, board, and services less contractual adjustments, bad
 17 debt, and revenue from sources other than operations, including, but not
 18 limited to, interest, guest meals, gifts, and grants.

19 Sec. 3. (1) The department shall amend the medicaid state plan or
 20 file other federal authorizing documents to establish assessments and
 21 directed-payment programs for hospital inpatient and outpatient services.

22 (2) Upon approval by the federal Centers for Medicare and Medicaid
 23 Services of a hospital assessment and a directed-payment program, the
 24 department shall impose an assessment on hospitals to assure quality and
 25 access in the medical assistance program.

26 (3) The department may establish different assessment rates based on
 27 categories of hospital or hospital services as allowed by federal law.

1 (4) The department shall consult with a statewide association
 2 representing a majority of hospitals and health systems in Nebraska
 3 regarding the development, implementation, and annual renewal of the
 4 assessments and the directed-payment programs.

5 (5) The department shall partner with a statewide association
 6 representing a majority of hospitals and health systems in Nebraska to
 7 aggregate inpatient, outpatient, and clinic claims data in order to
 8 establish medicaid quality improvement metrics and track progress on
 9 identified metrics.

10 (6) The department shall adopt and promulgate rules and regulations
 11 that are necessary and proper to implement the Hospital Quality Assurance
 12 and Access Assessment Act.

13 Sec. 4. The department shall collect assessments from hospitals and
 14 remit the assessments to the State Treasurer for credit to the Hospital
 15 Quality Assurance and Access Assessment Fund. It is the intent of the
 16 Legislature that no proceeds from the fund, including the federal match,
 17 shall be placed in the General Fund.

18 Sec. 5. (1) Each hospital shall pay an assessment based on net
 19 patient revenue for the purpose of improving the quality of, and access
 20 to, hospital care in the state. The statewide aggregate assessment shall
 21 equal (a) the state share of the payments authorized by the federal

22 Centers for Medicare and Medicaid Services and (b) an administrative fee
23 retained by the department that shall be no more than two percent of the
24 statewide aggregate assessment required to fund the directed-payment
25 program. The statewide aggregate assessment total shall not exceed six
26 percent of the net patient revenue of all assessed hospitals.
27 (2)(a) A hospital shall pay its quarterly assessment within thirty
28 days after receipt of its quarterly directed payments. Failure of a
29 hospital to remit the assessments may result in penalties, interest, or
30 legal action.
31 (b) A new hospital shall begin paying an assessment and receiving
1 directed payments at the start of the first full fiscal year after the
2 hospital is eligible for medicaid reimbursement for inpatient or
3 outpatient services. A hospital that has merged with another hospital
4 shall have its assessment and directed payments revised at the start of
5 the first full fiscal year after the merger is recognized by the
6 department. A closed hospital shall be retroactively responsible for
7 assessments owed and shall receive directed payments for services
8 provided.
9 (3) If the department determines that a hospital has underpaid or
10 overpaid assessments, the department shall notify the hospital of the
11 unpaid assessments or of any refund due. Such payment or refund shall be
12 due or refunded within thirty days after the date of the notice.
13 Sec. 6. (1) The Hospital Quality Assurance and Access Assessment
14 Fund is created. Interest earned on the fund shall be credited to the
15 fund. Any money in the fund available for investment shall be invested by
16 the state investment officer pursuant to the Nebraska Capital Expansion
17 Act and the Nebraska State Funds Investment Act.
18 (2) The department shall use the Hospital Quality Assurance and
19 Access Assessment Fund, including the matching federal financial
20 participation, for the purpose of enhancing rates paid to hospitals under
21 the medical assistance program. Money in the fund shall not be used to
22 replace or offset existing state funds paid to hospitals for providing
23 services under the medical assistance program.
24 (3) The Hospital Quality Assurance and Access Assessment Fund shall
25 also be used to pay the department the administrative fee described in
26 section 5 of this act, to collect assessments and administer directed-
27 payment programs established by the Hospital Quality Assurance and Access
28 Assessment Act.
29 (4) In calculating rates, the proceeds from assessments and federal
30 match not utilized under subsection (3) of this section shall be used to
31 enhance rates for hospital inpatient and outpatient services in addition
1 to any funds appropriated by the Legislature.
2 (5) The department shall collect data for revenue, discharge, and
3 inpatient days from a hospital that does not file an annual medicare cost
4 report. At the request of the department, a hospital that does not file
5 an annual medicare cost report shall submit such requested data to the
6 department.
7 (6) The department shall prohibit a medicaid managed care
8 organization from (a) setting, establishing, or negotiating reimbursement
9 rates with a hospital in a manner that takes into account, directly or
10 indirectly, a directed payment that a hospital receives under the
11 Hospital Quality Assurance and Access Assessment Act, (b) unnecessarily
12 delaying a directed payment to a hospital, or (c) recouping or offsetting
13 a directed payment for any reason.
14 (7) A hospital shall not directly pass on the cost of an assessment
15 to patients or non-medicare payors, including as a fee or rate increase.
16 A hospital that violates this subsection shall not receive a directed
17 payment for the remainder of the rate year. This subsection shall not be
18 construed to prohibit a hospital from negotiating with a non-medicare
19 payor for a rate increase.

20 Sec. 7. It is the intent of the Legislature that medicaid rates
 21 paid for hospital inpatient and outpatient services and the General Fund
 22 appropriations for hospital inpatient and outpatient services in the
 23 medical assistance program shall not be reduced to an amount below the
 24 rates paid and General Fund appropriations for these services in fiscal
 25 year 2023-24.

26 Sec. 8. Assessments and directed-payment programs shall be treated
 27 as a separate component in developing rates paid to hospitals and shall
 28 not be included with existing rate components. The assessments and
 29 directed-payment programs shall be retroactive to July 1, 2024, or the
 30 effective date approved by the federal Centers for Medicare and Medicaid
 31 Services.

1 Sec. 9. (1) The department shall discontinue the collection of
 2 assessments when federal matching funds are unavailable. In such case,
 3 the department shall terminate the collection of the assessments
 4 beginning on the date such federal matching funds become unavailable.

5 (2) If collection of assessments is discontinued as provided in this
 6 section, the money in the Hospital Quality Assurance and Access
 7 Assessment Fund shall be returned to the hospitals from which the
 8 assessments were collected on the same proportional basis as the
 9 assessments were assessed.

10 Sec. 10. Since an emergency exists, this act takes effect when
 11 passed and approved according to law.

[AM2512](#)

(Amendments to Standing Committee amendments, AM2404)

1 1. Strike the original sections and insert the following new

2 sections:

3 Section 1. Sections 1 to 10 of this act shall be known and may be
4 cited as the Hospital Quality Assurance and Access Assessment Act.

5 Sec. 2. For purposes of the Hospital Quality Assurance and Access
6 Assessment Act:

7 (1) Assessment means a quality assurance and access assessment
8 imposed on hospitals pursuant to section 3 of this act;

9 (2) Department means the Division of Medicaid and Long-Term Care
10 Services of the Department of Health and Human Services;

11 (3) Hospital means a hospital as defined in section 71-419 or a
12 rural emergency hospital as defined in section 71-477;

13 (4) Medical assistance program means the medical assistance program
14 established pursuant to the Medical Assistance Act; and

15 (5) Net patient revenue means the revenue paid to a hospital for
16 patient care, room, board, and services less contractual adjustments, bad
17 debt, and revenue from sources other than operations, including, but not
18 limited to, interest, guest meals, gifts, and grants.

19 Sec. 3. (1) The department shall amend the medicaid state plan or
20 file other federal authorizing documents to establish assessments and
21 directed-payment programs for hospital inpatient and outpatient services.

22 (2) Upon approval by the federal Centers for Medicare and Medicaid
23 Services of a hospital assessment and a directed-payment program, the
24 department shall impose an assessment on hospitals to assure quality and
25 access in the medical assistance program.

26 (3) The department may establish different assessment rates based on
1 categories of hospital or hospital services as allowed by federal law.

2 (4) The department shall consult with a statewide association
3 representing a majority of hospitals and health systems in Nebraska
4 regarding the development, implementation, and annual renewal of the
5 assessments and the directed-payment programs.

6 (5) The department shall partner with a statewide association
7 representing a majority of hospitals and health systems in Nebraska to:

8 (a) Aggregate inpatient, outpatient, and clinic claims data in order
9 to establish quality improvement metrics and track progress on identified
10 metrics;

11 (b) Design and implement initiatives to improve children's mental
12 health, adult mental health, maternity care, and senior care; and

13 (c) Increase the workforce development of nurses and other health
14 professionals by hospitals and health systems providing at least fifty
15 million dollars per year in private investments in statewide health care
16 workforce development.

17 (6) The department shall adopt and promulgate rules and regulations
18 that are necessary and proper to implement the Hospital Quality Assurance
19 and Access Assessment Act.

20 Sec. 4. Except as provided in section 6 of this act, the department
21 shall collect assessments from hospitals and remit the assessments to the
22 State Treasurer for credit to the Hospital Quality Assurance and Access
23 Assessment Fund. It is the intent of the Legislature that no proceeds
24 from the fund, including the federal match, shall be placed in the
25 General Fund.

26 Sec. 5. (1) Each hospital shall pay an assessment based on net
27 patient revenue for the purpose of improving the quality of, and access
28 to, hospital care in the state. The statewide aggregate assessment shall
29 equal (a) the state share of the payments authorized by the federal
30 Centers for Medicare and Medicaid Services and (b) funds for expenditures
31 as provided in subsection (3) of section 6 of this act. The statewide
1 aggregate assessment total shall not exceed six percent of the net
2 patient revenue of all assessed hospitals.

3 (2)(a) A hospital shall pay its quarterly assessment within thirty
4 days after receipt of its quarterly directed payments. Failure of a
5 hospital to remit the assessments may result in penalties, interest, or
6 legal action.

7 (b) A new hospital shall begin paying an assessment and receiving
8 directed payments at the start of the first full fiscal year after the

9 hospital is eligible for medicaid reimbursement for inpatient or
10 outpatient services. A hospital that has merged with another hospital
11 shall have its assessment and directed payments revised at the start of
12 the first full fiscal year after the merger is recognized by the
13 department. A closed hospital shall be retroactively responsible for
14 assessments owed and shall receive directed payments for services
15 provided.

16 (3) If the department determines that a hospital has underpaid or
17 overpaid assessments, the department shall notify the hospital of the
18 unpaid assessments or of any refund due. Such payment or refund shall be
19 due or refunded within thirty days after the date of the notice.

20 Sec. 6. (1) The Hospital Quality Assurance and Access Assessment
21 Fund is created. Interest earned on the fund shall be credited to the
22 fund. Any money in the fund available for investment shall be invested by
23 the state investment officer pursuant to the Nebraska Capital Expansion
24 Act and the Nebraska State Funds Investment Act.

25 (2) The department shall use the Hospital Quality Assurance and
26 Access Assessment Fund, including the matching federal financial
27 participation, for the purpose of enhancing rates paid to hospitals under
28 the medical assistance program except as allowed by subsection (3) of
29 this section. Money in the fund shall not be used to replace or offset
30 existing state funds paid to hospitals for providing services under the
31 medical assistance program.

1 (3) The Hospital Quality Assurance and Access Assessment Fund shall
2 also be used to:

3 (a) Recover funds used to process directed payments to hospitals;
4 (b) Reimburse the department an administrative fee of three percent
5 of the assessment, not to exceed fifteen million dollars per year, to
6 collect assessments and administer directed-payment programs established
7 by the Hospital Quality Assurance and Access Assessment Act;
8 (c) Provide the Nebraska Center for Nursing Board one-half of one
9 percent of the assessment, not to exceed two million five hundred
10 thousand dollars per year, for the expansion of clinical nursing training
11 sites as authorized in subsection (3) of section 71-1798; and
12 (d) Provide funding of three and one-half of one percent of the
13 assessment, not to exceed seventeen million five hundred thousand dollars
14 per year, for rates for nonhospital providers in the medical assistance
15 program, continuous eligibility for children, or the designated health
16 information exchange authorized in section 81-6,125.

17 (4) In calculating rates, the proceeds from assessments and federal
18 match not utilized under subsection (3) of this section shall be used to
19 enhance rates for hospital inpatient and outpatient services in addition
20 to any funds appropriated by the Legislature.

21 (5) The department shall collect data for revenue, discharge, and
22 inpatient days from a hospital that does not file an annual medicare cost
23 report. At the request of the department, a hospital that does not file
24 an annual medicare cost report shall submit such requested data to the
25 department.

26 (6) The department shall prohibit a medicaid managed care
27 organization from (a) setting, establishing, or negotiating reimbursement
28 rates with a hospital in a manner that takes into account, directly or
29 indirectly, a directed payment that a hospital receives under the
30 Hospital Quality Assurance and Access Assessment Act, (b) unnecessarily
31 delaying a directed payment to a hospital, or (c) recouping or offsetting
1 a directed payment for any reason.

2 (7)(a) A hospital shall not:

3 (i) Set, establish, or negotiate reimbursement rates with a managed
4 care organization in a manner that directly or indirectly takes into
5 account a directed payment that a hospital receives under the Hospital
6 Quality Assurance and Access Assessment Act; or
7 (ii) Directly pass on the cost of an assessment to patients or
8 nonmedicaid payors, including as a fee or rate increase.

9 (b) A hospital that violates this subsection shall not receive a
10 directed payment for the remainder of the rate year. This subsection

11 shall not be construed to prohibit a hospital from negotiating with a
 12 payor for a rate increase.
 13 Sec. 7. It is the intent of the Legislature that medicaid rates
 14 paid for hospital inpatient and outpatient services and the General Fund
 15 appropriations for hospital inpatient and outpatient services in the
 16 medical assistance program shall not be reduced to an amount below the
 17 rates paid and General Fund appropriations for these services in fiscal
 18 year 2023-24.
 19 Sec. 8. Assessments and directed-payment programs shall be treated

 21 not be included with existing rate components. The assessments and
 22 directed-payment programs shall be retroactive to July 1, 2024, or the
 23 effective date approved by the federal Centers for Medicare and Medicaid
 24 Services.
 25 Sec. 9. (1) The department shall discontinue the collection of
 26 assessments when federal matching funds are unavailable. In such case,
 27 the department shall terminate the collection of the assessments
 28 beginning on the date such federal matching funds become unavailable.
 29 (2) If collection of assessments is discontinued as provided in this
 30 section, the money in the Hospital Quality Assurance and Access

 1 assessments were collected on the same proportional basis as the
 2 assessments were assessed for the quarter in which the assessment was
 3 terminated.
 4 Sec. 10. The Hospital Quality Assurance and Access Assessment Act

LEGISLATIVE BILL 856. Placed on General File with amendment.

AM2510

1 1. Strike the original sections and insert the following new
 2 sections:
 3 Section 1. Section 68-1206, Revised Statutes Supplement, 2023, is
 4 amended to read:
 5 68-1206 (1) The Department of Health and Human Services shall
 6 administer the program of social services in this state. The department
 7 may contract with other social agencies for the purchase of social

8 services at rates not to exceed those prevailing in the state or the cost
9 at which the department could provide those services. The statutory
10 maximum payments for the separate program of aid to dependent children
11 shall apply only to public assistance grants and shall not apply to
12 payments for social services.

13 (2)(a) As part of the provision of social services authorized by
14 section 68-1202, the department shall participate in the federal child
15 care assistance program under 42 U.S.C. 9857 et seq., as such sections
16 existed on January 1, 2023, and provide child care assistance to families
17 with incomes up to (i) one hundred eighty-five percent of the federal
18 poverty level prior to October 1, 2026, or (ii) one hundred thirty
19 percent of the federal poverty level on and after October 1, 2026.

20 (b)(i) (b) As part of the provision of social services authorized by
21 this section and section 68-1202, the department shall participate in the
22 federal Child Care Subsidy program. A child care provider seeking to
23 participate in the federal Child Care Subsidy program shall comply with
24 the criminal history record information check requirements of the Child
25 Care Licensing Act. In determining ongoing eligibility for this program,
26 ten percent of a household's gross earned income shall be disregarded
27 after twelve continuous months on the program and at each subsequent
1 redetermination. In determining ongoing eligibility, if a family's income
2 exceeds one hundred eighty-five percent of the federal poverty level
3 prior to October 1, 2026, or one hundred thirty percent of the federal
4 poverty level on and after October 1, 2026, the family shall receive
5 transitional child care assistance through the remainder of the family's
6 eligibility period or until the family's income exceeds eighty-five
7 percent of the state median income for a family of the same size as
8 reported by the United States Bureau of the Census, whichever occurs
9 first. When the family's eligibility period ends, the family shall
10 continue to be eligible for transitional child care assistance if the
11 family's income is below two hundred percent of the federal poverty level
12 prior to October 1, 2026, or one hundred eighty-five percent of the
13 federal poverty level on and after October 1, 2026. The family shall
14 receive transitional child care assistance through the remainder of the
15 transitional eligibility period or until the family's income exceeds
16 eighty-five percent of the state median income for a family of the same
17 size as reported by the United States Bureau of the Census, whichever
18 occurs first. The amount of such child care assistance shall be based on
19 a cost-shared plan between the recipient family and the state and shall
20 be based on a sliding-scale methodology. A recipient family may be
21 required to contribute a percentage of such family's gross income for
22 child care that is no more than the cost-sharing rates in the
23 transitional child care assistance program as of January 1, 2015, for
24 those no longer eligible for cash assistance as provided in section
25 68-1724.

26 (ii) A household shall have all earned and unearned income excluded
27 from its eligibility determination if the applicant or adult household
28 member is:

29 (A)(I) Self-employed at a licensed child care program as described
30 in section 71-1911, (II) employed at a licensed child care program as
31 described in section 71-1911, (III) employed at a federal Head Start
1 program, as described in 42 U.S.C. 9831 et seq., or (IV) employed at an
2 Early Head Start program, as described in 42 U.S.C. 9840a;

3 (B) Verified for a minimum of twenty hours of employment per week;
4 and

5 (C) Listed in the Nebraska Early Childhood Professional Record
6 System as described in section 71-1962.

7 (iii) Child care programs with an eligible household described in
8 subdivision (2)(b)(ii)(A)(II) or (2)(b)(ii)(A)(III) of this section shall
9 make reasonable accommodations so that the eligible applicant or adult

10 household member is not a primary caregiver to such applicant's or adult
 11 household member's child. If reasonable accommodation cannot be made, the
 12 department shall allow the applicant or adult household member to receive
 13 child care assistance for the applicant's or adult household member's
 14 child including when the applicant or adult household member is the
 15 primary caregiver for such child.
 16 (iv) An eligible household described in subdivision (2)(b)(ii)(A)(i)
 17 of this section may enroll the household member's child in a child care
 18 program other than the household member's child care program to receive
 19 child care assistance.
 20 (v) Nothing in subdivision (2)(b)(ii) of this section shall preclude
 21 a household from meeting additional eligibility requirements of the
 22 federal Child Care Subsidy program.
 23 (vi) The department shall submit a report electronically to the
 24 Legislature on December 1 of each year that includes the monthly number
 25 of enrolled children and households by county and program type for
 26 households eligible pursuant to subdivision (2)(b)(ii) of this section.
 27 (c) For the period beginning July 1, 2021, through September 30,
 28 2026, funds provided to the State of Nebraska pursuant to the Child Care
 29 and Development Block Grant Act of 1990, 42 U.S.C. 9857 et seq., as such
 30 act and sections existed on January 1, 2023, shall be used to pay the
 31 costs to the state resulting from the income eligibility changes made in
 1 subdivisions (2)(a) and (b) of this section by Laws 2021, LB485. If the
 2 available amount of such funds is insufficient to pay such costs, then
 3 funds provided to the state for the Temporary Assistance for Needy
 4 Families program established in 42 U.S.C. 601 et seq. may also be used.
 5 No General Funds shall be used to pay the costs to the state, other than
 6 administration costs, resulting from the income eligibility changes made
 7 in subdivisions (2)(a) and (b) of this section by Laws 2021, LB485, for
 8 the period beginning July 1, 2021, through September 30, 2026.
 9 (d) The Department of Health and Human Services shall collaborate
 10 with a private nonprofit organization with expertise in early childhood
 11 care and education for an independent evaluation of the income
 12 eligibility changes made in subdivisions (2)(a) and (b) of this section
 13 by Laws 2021, LB485, if private funding is made available for such
 14 purpose. The evaluation shall be completed by July 1, 2024, and shall be
 15 submitted electronically to the department and to the Health and Human
 16 Services Committee of the Legislature.
 17 (3) In determining the rate or rates to be paid by the department
 18 for child care as defined in section 43-2605, the department shall adopt
 19 a fixed-rate schedule for the state or a fixed-rate schedule for an area
 20 of the state applicable to each child care program category of provider
 21 as defined in section 71-1910 which may claim reimbursement for services
 22 provided by the federal Child Care Subsidy program, except that the
 23 department shall not pay a rate higher than that charged by an individual
 24 provider to that provider's private clients. The schedule may provide
 25 separate rates for care for infants, for children with special needs,
 26 including disabilities or technological dependence, or for other
 27 individual categories of children. The schedule may also provide tiered
 28 rates based upon a quality scale rating of step three or higher under the
 29 Step Up to Quality Child Care Act. The schedule shall be effective on
 30 October 1 of every year and shall be revised annually by the department.

14 exceeding one-half mile outside its own service area when all owners of
15 electric lines located within one-half mile of the extension consent

17 any generation facility when the board finds that (i) such facility is
18 being constructed or acquired to replace a generating plant owned by an

21 facility will generate less than twenty-five thousand kilowatts of
22 electric energy at rated capacity, and (iii) the applicant will not use
23 the plant or transmission capacity to supply wholesale power to customers
24 outside the applicant's existing retail service area or chartered
25 territory, (c) for acquisition of transmission lines or related
26 facilities, within the state, carrying one hundred fifteen thousand volts
27 or less, if the current owner of the transmission lines or related

6 materials, electronics, or other components manufactured by any foreign
7 government or foreign nongovernment person determined to be a foreign
8 adversary pursuant to 15 C.F.R. 7.4.

9 (3) (2) A privately developed renewable energy generation facility
10 is exempt from this section if it complies with section 70-1014.02.

11 Sec. 3. Section 70-1014.02, Revised Statutes Cumulative Supplement,
12 2022, is amended to read:

13 70-1014.02 (1) The Legislature finds that:

14 (a) Nebraska has the authority as a sovereign state to protect its
15 land, natural resources, and cultural resources for economic and
16 aesthetic purposes for the benefit of its residents and future
17 generations by regulation of energy generation projects;

18 (b) The unique terrain and ecology of the Nebraska Sandhills provide
19 an irreplaceable habitat for millions of migratory birds and other
20 wildlife every year and serve as the home to numerous ranchers and
21 farmers;

22 (c) The grasslands of the Nebraska Sandhills and other natural
23 resources in Nebraska will become increasingly valuable, both
24 economically and strategically, as the demand for food and energy
25 increases; and

26 (d) The Nebraska Sandhills are home to priceless archaeological

27 sites of historical and cultural significance to American Indians.
28 (2)(a) A privately developed renewable energy generation facility
29 that meets the requirements of this section is exempt from sections
30 70-1012 to 70-1014.01 if no less than thirty days prior to the
31 commencement of construction the owner of the facility:
1 (i) Notifies the board in writing of its intent to commence
2 construction of a privately developed renewable energy generation
3 facility;
4 (ii) Certifies to the board that the facility will meet the
5 requirements for a privately developed renewable energy generation
6 facility;
7 (iii) Certifies to the board that the private electric supplier will
8 (A) comply with any decommissioning requirements adopted by the local
9 governmental entities having jurisdiction over the privately developed
10 renewable energy generation facility and (B) except as otherwise provided
11 in subdivision (b) of this subsection, submit a decommissioning plan to
12 the board obligating the private electric supplier to bear all costs of
13 decommissioning the privately developed renewable energy generation
14 facility and requiring that the private electric supplier post a security
15 bond or other instrument, no later than the tenth year following
16 commercial operation, securing the costs of decommissioning the facility
17 and provide a copy of the bond or instrument to the board;
18 (iv) Certifies to the board that the private electric supplier has
19 entered into or prior to commencing construction will enter into a joint
20 transmission development agreement pursuant to subdivision (c) of this
21 subsection with the electric supplier owning the transmission facilities
22 of sixty thousand volts or greater to which the privately developed
23 renewable energy generation facility will interconnect; ~~and~~
24 (v) Certifies to the board that the private electric supplier has
25 consulted with the Game and Parks Commission to identify potential
26 measures to avoid, minimize, and mitigate impacts to species identified
27 under subsection (1) or (2) of section 37-806 during the project planning
28 and design phases, if possible, but in no event later than the
29 commencement of construction; ~~and~~ -
30 (vi) Certifies in writing to the board that the facility, if located
31 within a ten-mile radius of a military installation, contains no
1 materials, electronics, or other components manufactured by any foreign
2 government or foreign nongovernment person determined to be a foreign
3 adversary pursuant to 15 C.F.R. 7.4.
4 (b) The board may bring an action in the name of the State of
5 Nebraska for failure to comply with subdivision (a)(iii)(B) of this
6 subsection. Subdivision (a)(iii)(B) of this subsection does not apply if
7 a local government entity with the authority to create requirements for
8 decommissioning has enacted decommissioning requirements for the
9 applicable jurisdiction.
10 (c) The joint transmission development agreement shall address
11 construction, ownership, operation, and maintenance of such additions or
12 upgrades to the transmission facilities as required for the privately
13 developed renewable energy generation facility. The joint transmission
14 development agreement shall be negotiated and executed contemporaneously
15 with the generator interconnection agreement or other directives of the
16 applicable regional transmission organization with jurisdiction over the
17 addition or upgrade of transmission, upon terms consistent with prudent
18 electric utility practices for the interconnection of renewable
19 generation facilities, the electric supplier's reasonable transmission
20 interconnection requirements, and applicable transmission design and
21 construction standards. The electric supplier shall have the right to
22 purchase and own transmission facilities as set forth in the joint
23 transmission development agreement. The private electric supplier of the
24 privately developed renewable energy generation facility shall have the

25 right to construct any necessary facilities or improvements set forth in
 26 the joint transmission development agreement pursuant to the standards
 27 set forth in the agreement at the private electric supplier's cost.
 28 (3) Within ten days after receipt of a written notice complying with
 29 subsection (2) of this section, the executive director of the board shall
 30 issue a written acknowledgment that the privately developed renewable
 31 energy generation facility is exempt from sections 70-1012 to 70-1014.01.
 1 (4) The exemption allowed under this section for a privately
 2 developed renewable energy generation facility shall extend to and exempt
 3 all private electric suppliers owning any interest in the facility,
 4 including any successor private electric supplier which subsequently
 5 acquires any interest in the facility.
 6 (5) No property owned, used, or operated as part of a privately
 7 developed renewable energy generation facility shall be subject to
 8 eminent domain by a consumer-owned electric supplier operating in the
 9 State of Nebraska. Nothing in this section shall be construed to grant
 10 the power of eminent domain to a private electric supplier or limit the
 11 rights of any entity to acquire any public, municipal, or utility right-
 12 of-way across property owned, used, or operated as part of a privately
 13 developed renewable energy generation facility as long as the right-of-
 14 way does not prevent the operation of or access to the privately
 15 developed renewable energy generation facility.
 16 (6) Only a consumer-owned electric supplier operating in the State
 17 of Nebraska may exercise eminent domain authority to acquire the land
 18 rights necessary for the construction of transmission lines and related
 19 facilities. There is a rebuttable presumption that the exercise of
 20 eminent domain to provide needed transmission lines and related
 21 facilities for a privately developed renewable energy generation facility
 22 is a public use.
 23 (7) Nothing in this section shall be construed to authorize a
 24 private electric supplier to sell or deliver electricity at retail in
 25 Nebraska.
 26 (8) Nothing in this section shall be construed to limit the

AMENDMENT(S) - Print in Journal

Senator Wayne filed the following amendment to LB253:
AM2534

1 1. Strike the original sections and insert the following new
2 sections:
3 Section 1. For purposes of sections 1 to 7 of this act:
4 (1) Case plan means a set of goals, conditions, and programs that
5 is:
6 (a) Based on a professional risk and needs assessment;
7 (b) Tailored to the specific risks and needs of the veteran; and
8 (c) Developed in collaboration with the veteran;
9 (2) Condition from military service means substance-use disorder,
10 military sexual trauma, traumatic brain injury, posttraumatic stress
11 disorder, or another mental health condition that is related to an
12 individual's military service in some manner and includes psychological
13 effects from a veteran's time in service as well as from the period of
14 family separation related to deployment;
15 (3) Veteran means an individual who:
16 (a) Is serving in the United States Armed Forces, including any
17 reserve component or the National Guard;
18 (b) Has served in such armed forces and was discharged or released
19 from such service under conditions other than dishonorable; or
20 (c) Has served in such armed forces and received a dishonorable
21 discharge and such individual has been diagnosed with substance-use
22 disorder, military sexual trauma, traumatic brain injury, posttraumatic
23 stress disorder, or another mental health condition; and
24 (4) Veteran justice program means the program described in sections
25 2 to 5 of this act through which a veteran may defer entry of judgment of
26 conviction for an offense pending completion of the program, and upon
27 successful completion, avoid entry of judgment of conviction.
1 Sec. 2. (1) Each district or county court shall establish a veteran
2 justice program as provided in sections 2 to 5 of this act and subject to
3 the Supreme Court's rules.
4 (2) A veteran justice program may be operated pursuant to a problem-
5 solving court or by use of deferred judgments under section 29-2292.
6 Sec. 3. (1) A veteran shall be eligible to participate in a veteran
7 justice program if:
8 (a) The offense is eligible for probation;

9 (b) The offense is not listed in subsection (2) of section 29-2292;
10 and
11 (c) There is reason to believe that a condition from military
12 service contributed to the offense.
13 (2)(a) There shall be a rebuttable presumption that a court shall
14 allow a veteran eligible under subsection (1) of this section to
15 participate in a veteran justice program.
16 (b) This presumption applies even though a veteran may have
17 previously absconded from or violated pretrial release, probation,
18 parole, supervised release, or another form of court-ordered supervision,
19 including a violation arising from commission of a new offense, even an
20 offense committed while previously participating in a veteran justice
21 program.
22 (c) The presumption shall only be overcome by a judicial finding
23 that, based upon an individualized assessment of the veteran and
24 consideration of the supervision, treatment, and other programming
25 available in the community, participation in the veteran justice program
26 will not reasonably ensure public safety.
27 Sec. 4. (1) A veteran justice program shall include the following
28 elements:
29 (a) Evidence-based treatment tailored to address the specific
30 challenges facing veterans, such as posttraumatic stress disorder,
31 traumatic brain injury, military sexual trauma, or another condition from
1 military service; and
2 (b) A case plan that is:
3 (i) Developed by the court with probation and appropriate experts;
4 (ii) Based on a professional assessment of the veteran's specific
5 risks and needs;
6 (iii) Created in conjunction with input from the veteran;
7 (iv) Containing clear and individualized supervision and treatment
8 goals, including guidelines that detail the program rules, consequences
9 for violating the rules, and incentives for compliance; and
10 (v) Communicated to the veteran at the start of the program.
11 (2) In the implementation of a veteran justice program, the district
12 or county court shall retain discretion in:
13 (a) Determining eligibility for participation, subject to section 3
14 of this act;
15 (b) Establishing the conditions of the program, including the
16 creation of the case plan;
17 (c) Setting the terms of successful program completion and release
18 upon that successful completion; and
19 (d) Determining if the veteran has successfully completed the
20 program at a final hearing.
21 (3) A victim of the veteran shall have the opportunity to be
22 involved in the veteran justice program, including the opportunity to be
23 heard or submit a written statement at the final hearing where program
24 completion is determined.
25 (4) Upon successful completion of a veteran justice program, the
26 veteran shall be entitled to the relief set forth in the problem-solving
27 court program or pursuant to a deferred judgment under section 29-2292.
28 Sec. 5. (1) When sentencing a defendant who is a veteran for any
29 offense, a court shall recognize the defendant's veteran status as a
30 mitigating factor in determining the sentence.
31 (2) When arraigning any defendant, a court shall notify the
1 defendant that veteran status will be used as a mitigating factor as
2 provided in this section. The court shall offer the defendant the ability
3 to communicate his or her veteran status through counsel or by other
4 means. The court shall not require that the defendant self-identify as a
5 veteran in open court.
6 (3) A court shall consider a defendant's veteran status as a

7 mitigating factor in addition to any other mitigating factors provided by
 8 law or considered by the court. The fact that a defendant may have
 9 suffered trauma unrelated to military service or veteran status shall not
 10 be used to deny the impact of any military trauma or condition of
 11 military service.

12 (4) A court may take into consideration individual merit earned
 13 during military service, overseas deployment, exposure to danger, and
 14 service-connected disability ratings when considering sentencing
 15 mitigation. When considering multiple factors, a court should give
 16 additional credit for each factor.

17 (5) A sentence of imprisonment is inappropriate in all but the most
 18 severe cases if a veteran can show:

19 (a) A clear connection between the offense and a condition from
 20 military service; and

21 (b) That the veteran has made progress in treating such condition.

22 (6) A court shall not:

23 (a) Use veteran status as an aggravating factor; or

24 (b) Require a connection between the offense and a condition from
 25 military service in order to consider veteran status as a mitigating
 26 factor.

27 (7) This section applies regardless of whether a veteran is eligible
 28 for participation in a veteran justice program.

29 Sec. 6. (1) Law enforcement, court, and correctional personnel shall
 30 verify the veteran status of any individual being processed through the
 31 criminal justice system in order to identify individuals who may be
 1 eligible for participation in a veteran justice program or for sentencing
 2 mitigation as provided in section 5 of this act.

3 (2) Law enforcement, court, and correctional personnel shall receive
 4 training designed to increase their understanding of cases involving
 5 veterans, including veterans' exposure to violence and trauma. Such
 6 training shall include attention on issues that disproportionately impact
 7 female veterans, such as military sexual trauma.

8 Sec. 7. (1) The State Court Administrator shall compile information
 9 on the number of veterans receiving, successfully completing, declining,
 10 and denied participation in a veteran justice program and the sentencing
 11 mitigation described in section 5 of this act.

12 (2) The State Court Administrator shall track outcomes among
 13 veterans who participate in a veteran justice program, including
 14 completion status, recidivism, and housing and employment status.

15 (3) Data collected under this section shall be disaggregated by
 16 race, ethnicity, gender, age, military discharge characterization, and
 17 the offense involved.

18 (4) On or before July 1, 2026, and on or before each July 1
 19 thereafter, the State Court Administrator shall electronically submit a
 20 report to the Judiciary Committee of the Legislature. The report shall
 21 contain de-identified data collected pursuant to this section and shall
 22 analyze the outcomes, successes, and areas for improvement of the veteran
 23 justice programs and the sentencing mitigation described in section 5 of
 24 this act.

25 Sec. 8. This act becomes operative on July 1, 2025.

(Amendments to Standing Committee amendments, AM2510)

1 1. Strike the original sections and insert the following new
 2 sections:

3 Section 1. Section 68-1206, Revised Statutes Supplement, 2023, is
 4 amended to read:

5 68-1206 (1) The Department of Health and Human Services shall
 6 administer the program of social services in this state. The department

7 may contract with other social agencies for the purchase of social
8 services at rates not to exceed those prevailing in the state or the cost
9 at which the department could provide those services. The statutory
10 maximum payments for the separate program of aid to dependent children
11 shall apply only to public assistance grants and shall not apply to
12 payments for social services.

13 (2)(a) As part of the provision of social services authorized by
14 section 68-1202, the department shall participate in the federal child
15 care assistance program under 42 U.S.C. 9857 et seq., as such sections
16 existed on January 1, 2023, and provide child care assistance to families
17 with incomes up to (i) one hundred eighty-five percent of the federal
18 poverty level prior to October 1, 2026, or (ii) one hundred thirty
19 percent of the federal poverty level on and after October 1, 2026.

20 (b)(i) (b) As part of the provision of social services authorized by
21 this section and section 68-1202, the department shall participate in the
22 federal Child Care Subsidy program. A child care provider seeking to
23 participate in the federal Child Care Subsidy program shall comply with
24 the criminal history record information check requirements of the Child
25 Care Licensing Act. In determining ongoing eligibility for this program,
26 ten percent of a household's gross earned income shall be disregarded
1 after twelve continuous months on the program and at each subsequent
2 redetermination. In determining ongoing eligibility, if a family's income
3 exceeds one hundred eighty-five percent of the federal poverty level
4 prior to October 1, 2026, or one hundred thirty percent of the federal
5 poverty level on and after October 1, 2026, the family shall receive
6 transitional child care assistance through the remainder of the family's
7 eligibility period or until the family's income exceeds eighty-five
8 percent of the state median income for a family of the same size as
9 reported by the United States Bureau of the Census, whichever occurs
10 first. When the family's eligibility period ends, the family shall
11 continue to be eligible for transitional child care assistance if the
12 family's income is below two hundred percent of the federal poverty level
13 prior to October 1, 2026, or one hundred eighty-five percent of the
14 federal poverty level on and after October 1, 2026. The family shall
15 receive transitional child care assistance through the remainder of the
16 transitional eligibility period or until the family's income exceeds
17 eighty-five percent of the state median income for a family of the same
18 size as reported by the United States Bureau of the Census, whichever
19 occurs first. The amount of such child care assistance shall be based on
20 a cost-shared plan between the recipient family and the state and shall
21 be based on a sliding-scale methodology. A recipient family may be
22 required to contribute a percentage of such family's gross income for
23 child care that is no more than the cost-sharing rates in the
24 transitional child care assistance program as of January 1, 2015, for
25 those no longer eligible for cash assistance as provided in section
26 68-1724.

27 (ii) A household shall have all earned and unearned income excluded
28 from its eligibility determination if the applicant or adult household
29 member is:

30 (A)(I) Self-employed at a licensed child care program as described
31 in section 71-1911, (II) employed at a licensed child care program as
1 described in section 71-1911, (III) employed at a federal Head Start
2 program, as described in 42 U.S.C. 9831 et seq., or (IV) employed at an
3 Early Head Start program, as described in 42 U.S.C. 9840a;

4 (B) Verified for a minimum of twenty hours of employment per week;
5 and

6 (C) Listed in the Nebraska Early Childhood Professional Record
7 System as described in section 71-1962.

8 (iii) Child care programs with an eligible household described in
9 subdivision (2)(b)(ii)(A)(II) or (2)(b)(ii)(A)(III) of this section shall

10 make reasonable accommodations so that the eligible applicant or adult
11 household member is not a primary caregiver to such applicant's or adult
12 household member's child. If reasonable accommodation cannot be made, the
13 department shall allow the applicant or adult household member to receive
14 child care assistance for the applicant's or adult household member's
15 child including when the applicant or adult household member is the
16 primary caregiver for such child.
17 (iv) An eligible household described in subdivision (2)(b)(ii)(A)(I)
18 of this section may enroll the household member's child in a child care
19 program other than the household member's child care program to receive
20 child care assistance.
21 (v) Nothing in subdivision (2)(b)(ii) of this section shall preclude
22 a household from meeting additional eligibility requirements of the
23 federal Child Care Subsidy program.
24 (vi) The department shall submit a report electronically to the
25 Legislature on December 1 of each year that includes the monthly number
26 of enrolled children and households by county and program type for
27 households eligible pursuant to subdivision (2)(b)(ii) of this section.
28 (vii) No more than ten million dollars shall be spent annually for
29 enrolled children under subdivisions (2)(b)(ii) through (vi) of this
30 section.
31 (viii) Subdivisions (2)(b)(ii) through (vi) of this section shall
1 terminate effective October 1, 2026.
2 (c) For the period beginning July 1, 2021, through September 30,
3 2026, funds provided to the State of Nebraska pursuant to the Child Care
4 and Development Block Grant Act of 1990, 42 U.S.C. 9857 et seq., as such
5 act and sections existed on January 1, 2023, shall be used to pay the
6 costs to the state resulting from the income eligibility changes made in
7 subdivisions (2)(a) and (b) of this section by Laws 2021, LB485. If the
8 available amount of such funds is insufficient to pay such costs, then
9 funds provided to the state for the Temporary Assistance for Needy
10 Families program established in 42 U.S.C. 601 et seq. may also be used.
11 No General Funds shall be used to pay the costs to the state, other than
12 administration costs, resulting from the income eligibility changes made
13 in subdivisions (2)(a) and (b) of this section by Laws 2021, LB485, for
14 the period beginning July 1, 2021, through September 30, 2026.
15 (d) The Department of Health and Human Services shall collaborate
16 with a private nonprofit organization with expertise in early childhood
17 care and education for an independent evaluation of the income
18 eligibility changes made in subdivisions (2)(a) and (b) of this section
19 by Laws 2021, LB485, if private funding is made available for such
20 purpose. The evaluation shall be completed by July 1, 2024, and shall be
21 submitted electronically to the department and to the Health and Human
22 Services Committee of the Legislature.
23 (3) In determining the rate or rates to be paid by the department
24 for child care as defined in section 43-2605, the department shall adopt
25 a fixed-rate schedule for the state or a fixed-rate schedule for an area
26 of the state applicable to each child care program category of provider
27 as defined in section 71-1910 which may claim reimbursement for services
28 provided by the federal Child Care Subsidy program, except that the
29 department shall not pay a rate higher than that charged by an individual
30 provider to that provider's private clients. The schedule may provide
31 separate rates for care for infants, for children with special needs,
1 including disabilities or technological dependence, or for other
2 individual categories of children. The schedule may also provide tiered
3 rates based upon a quality scale rating of step three or higher under the
4 Step Up to Quality Child Care Act. The schedule shall be effective on
5 October 1 of every year and shall be revised annually by the department.
6 Sec. 2. Original section 68-1206, Revised Statutes Supplement,
7 2023, is repealed.

RESOLUTION(S)

LEGISLATIVE RESOLUTION 303. Introduced by Murman, 38.

PURPOSE: The purpose of this resolution is to propose an interim study to study the viability of adopting the Classical Learning Test as an option for meeting admissions requirements at the University of Nebraska and the Nebraska state colleges. The adoption of the Classical Learning Test as an admissions test option would not replace the ACT or any other standard

college admission test used by the University of Nebraska or the Nebraska state colleges for admissions, but would allow applicants the option to submit the results of the Classical Learning Test instead of or in addition to other accepted tests. In order to carry out the purpose of this resolution, the input of interested individuals, public officials, and such entities as deemed necessary shall be considered and a copy of any findings and recommendations from the study shall be sent to the State Board of Education, the University of Nebraska, and the Nebraska state colleges.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

 1 NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED

22 Family Services of the Department of Health and Human Services, shall
23 have training in suicide awareness and prevention. Such training shall
24 include at least ninety minutes of behavioral and mental health training

16 (2) The department may issue a waiver for any licensing standard not

 16 families. Such training shall incorporate a baseline of curriculum
 17 materials described in section 1 of this act while also allowing a child-
 18 placing agency to incorporate training elements that meet the specific

5 completed fiscal year ending June 30 by October 1 of each year.

15 eight equal monthly payments, beginning in November of each fiscal year.

22 (3)(a) It is the intent of the Legislature to appropriate five
23 hundred thousand dollars from the Site and Building Development Fund for
24 fiscal year 2024-25 to the department to enter into one or more contracts

1 include consideration of super sites that encompass between five hundred
2 and one thousand acres and mega sites that encompass more than one
3 thousand acres. At least one proposed site shall be located west of the

LEGISLATIVE RESOLUTION 314. Introduced by Clements, 2.

PURPOSE: The purpose of this resolution is to propose an interim study to examine potential adjustments to county revenue sources and elimination of unnecessary county expenses to compensate for a phaseout of the Nebraska inheritance tax by 2029. A review of the effect of a five-year phaseout of the Nebraska inheritance tax is appropriate as Nebraska seeks to reform its tax structure to encourage economic growth, simplicity, and fairness for its residents and as Nebraska seeks to compete with other states in the region while providing adequate funds for necessary government duties and services.

The study shall include, but need not be limited to, an examination of the following:

- (1) The potential elimination of unnecessary and costly statutory requirements for counties;
- (2) Current county revenue sources outside of property taxes; and
- (3) Potential adjustments to current county revenue sources to provide adequate funds for necessary county government duties and services.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED EIGHTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

19 Sec. 3. (1) The department shall amend the medicaid state plan or
20 file other federal authorizing documents to establish assessments and

30 existing state funds paid to hospitals for providing services under the
31 medical assistance program.

1 (3) The Hospital Quality Assurance and Access Assessment Fund shall
2 also be used to:

3 (a) Reimburse the General Fund the amount of the first quarterly
4 payment on or before June 30 of each fiscal year;

1 delaying a directed payment to a hospital, or (c) recouping or offsetting
2 a directed payment for any reason.

9 nonmedicaid payors, including as a fee or rate increase.
10 (b) A hospital that violates this subsection shall not receive a
11 directed payment for the remainder of the rate year. This subsection
12 shall not be construed to prohibit a hospital from negotiating with a
13 payor for a rate increase.
14 Sec. 7. It is the intent of the Legislature that medicaid rates
15 paid for hospital inpatient and outpatient services and the General Fund
16 appropriations for hospital inpatient and outpatient services in the
17 medical assistance program shall not be reduced to an amount below the
18 rates paid and General Fund appropriations for these services in fiscal
19 year 2023-24.
20 Sec. 8. Assessments and directed-payment programs shall be treated
21 as a separate component in developing rates paid to hospitals and shall
22 not be included with existing rate components. The assessments and
23 directed-payment programs shall be retroactive to July 1, 2024, or the
24 effective date approved by the federal Centers for Medicare and Medicaid
25 Services.
26 Sec. 9. (1) The department shall discontinue the collection of
27 assessments when federal matching funds are unavailable. In such case,
28 the department shall terminate the collection of the assessments

MESSAGE(S) FROM THE GOVERNOR

March 4, 2024

Mr. President, Mr. Speaker, and
Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Mr. President and Members of the Legislature:

With this letter, I am returning LB 307 without my approval and without my signature. I am vetoing LB 307 for the following reasons:

- Syringe Service Programs (SSPs) have been shown to increase drug deaths where they have been implemented.
- SSPs are not effective at decreasing drug usage and disease transmission when compared to other means.
- The bill as written, would allow for children of any age to participate in these programs. I do not think it is prudent to encourage minors to abuse dangerous drugs instead of seeking out the substance abuse treatment they need to overcome drug addiction.
- SSPs have the potential to expose citizens to unintended, yet equally concerning health and safety risks as a result of improperly disposed needles.

The studies the proponents of this bill have cited to demonstrate the effectiveness of SSPs in reducing the spread of HIV focus on programs that were stood up to combat the AIDS crisis in the 1980s and 1990s. Those programs differ substantially from the ongoing opioid crisis in terms of its geographic reach and lethality. Those studies also relied on small sample sizes and self-reported data regarding individuals' drug use, and typically did not consider the unintended consequences to individuals who are not receiving direct treatment.

In fact, recent studies on the effectiveness of SSPs have found these programs only contribute to a negligible reduction in HIV infections, and at the expense of greater opioid-related deaths. For example, a study published in the *Journal of Public Economics* in June 2022 found that although SSPs may decrease HIV diagnoses rates by up to 1.1%, research also indicates these programs increase opioid-related mortality rates by 2 to 3.5%, or about three more cases per county per year, due to an increase in the use of heroin and illicit fentanyl.¹

Another study published by the National Bureau of Economic Research comparing the health outcomes of 79 counties from 2009 to 2016, found SSPs resulted in nearly two fewer cases of HIV per county per year, while resulting in four more drug-related deaths per county each year.² Additionally, research published in the *European Journal of Public Health* analyzing HIV prevention strategies and incidence rates in Denmark, Norway and Sweden suggest that a high level of HIV testing and counseling would be more effective in preventing HIV transmission than legal access to needles and syringes.³

Evidence has also shown that the costs and number of needles have ballooned in cities with established SSPs. In San Francisco, for example, health department records show the city handed out 3.3 million needles at a cost of \$400,397 in fiscal year 2013-14. Just two years later, the number of needles distributed increased to 4.45 million at a cost of \$523,363.⁴

San Francisco has also struggled with inadequate disposal of dirty needles, leaving vulnerable populations like children at risk of contracting deadly diseases. Of the 400,000 needles distributed monthly, the health department estimates that about 246,000 are returned through the city's syringe access and disposal sites, leaving more than 154,000 needles a month still unaccounted for. This has led to the city paying \$750,000 a year to hire people known as the "Syringe Pick Up Crew" to collect dirty needles on the streets and at area parks. All these costs add up and will lead to increased property taxes for residents of any municipality that chooses to institute a syringe service program.

In Santa Ana, California, city officials have pushed back on state implementation of a SSP, based on prior experience with a county program several years earlier.⁵ At the time, county employees reported the removal of 14,000 needles potentially contaminated with infectious diseases, while clearing a four-mile stretch of public land. The police chief and city manager sent letters of opposition to the state last year, citing safety and health concerns associated with the program. The mayor also spoke out in opposition to the state adopted SSP.

Simply put, adoption of LB307 has the potential to expose our communities to the same issues that others have experienced, as described above. Those are but a few examples.

Additionally, Nebraskans do not think it is prudent to encourage minors to abuse dangerous drugs instead of seeking out the substance abuse treatment they need to overcome drug addiction. We should support less deadly ways of combating drug usage and the spreading of diseases. It is for these reasons that I urge you to sustain my veto of LB 307.

Sincerely,
(Signed) Jim Pillen
Governor

[AM2775](#)

(Amendments to Standing Committee amendments, AM2734)

1 1. Strike section 1 and insert the following new sections:

2 Sec. 2. (1) The Intergenerational Care Facility Incentive Grant

3 Program is created. It is the intent of the Legislature to appropriate

4 three hundred thousand dollars from the Medicaid Managed Care Excess

5 Profit Fund for fiscal year 2024-25 to the Department of Health and Human

6 Services to provide grants pursuant to this section.

7 (2) The Department of Health and Human Services shall develop

8 requirements for eligibility, application, and audits for grants in

9 collaboration with statewide associations representing nursing homes as

10 defined in section 38-2414 and other stakeholders. The department shall

11 meet with such associations prior to October 1, 2024, to identify any

12 statutes, rules, regulations, or other regulatory barriers that impede

13 the development of an intergenerational care facility in which nursing

14 services and child care are provided and develop recommendations to

15 remediate such barriers that do not impact the safety of the staff or

16 recipients of the nursing services and child care or the quality of

17 nursing services and child care.

18 (3) The grants shall be awarded to facilities that are nursing homes

19 as defined in section 38-2414 or assisted-living facilities as defined in

20 section 71-5903 and that have been certified for participation in

21 medicare or medicaid. The grants shall be used for one-time startup costs

22 to provide for child care in such facilities. A facility may be awarded

23 one grant under this section of up to one hundred thousand dollars. The

24 grants shall be awarded for modification of structures, modification of

25 outside campus space of the nursing facilities, purchase of child care

26 equipment and supplies, or any combination of such purposes. A facility

1 that is applying for or awarded a grant is not required to own or operate

2 the child care services for which the grant is awarded.

3 (4) The department shall award the grants on the basis of date of

4 application with priority given to rural communities, as defined in

5 section 81-1228, for applications filed on the same date. A facility that

6 was cited for substandard quality of care during its most recent survey

7 is not eligible for a grant under this section. Each grant recipient

8 shall establish a plan to participate in the quality rating and

9 improvement system described in section 71-1956 within three years after

10 the date the grant is awarded.

11 Sec. 3. Section 68-996, Revised Statutes Cumulative Supplement,

12 2022, is amended to read:

13 68-996 The Medicaid Managed Care Excess Profit Fund is created. The

14 fund shall contain money returned to the State Treasurer pursuant to

15 subdivision (3) of section 68-995. The fund shall first be used to offset

16 any losses under subdivision (2) of section 68-995 and then to provide

17 for services addressing the health needs of adults and children under the

18 Medical Assistance Act, including filling service gaps, providing system
 19 improvements, and sustaining access to care, and providing grants
 20 pursuant to the Intergenerational Care Facility Incentive Grant Program
 21 as determined by the Legislature. The fund shall only be used for the
 22 purposes described in this section. Any money in the fund available for
 23 investment shall be invested by the state investment officer pursuant to
 24 the Nebraska Capital Expansion Act and the Nebraska State Funds
 25 Investment Act.
 26 2. Renumber the remaining sections and correct the repealer
 27 accordingly.

The Wishart amendment, to the committee amendment, was adopted with

10 (c) Prioritize applicants that are requesting a grant to:

11 (i) Increase child care capacity for children three years of age or

 13 child care program serving children enrolled in child care subsidy or
 14 expanding an existing licensed-child care or license-exempt child care
 15 program serving children enrolled in child care subsidy;

16 (ii) Support the child care workforce; or

17 (iii) Create a child care program in a county that is not served by
