LB 742 provides for instant runoff voting by having voters indicate rank order preference for candidates.

The Secretary of State notes that the current vote tabulation equipment will not be adequate to address this system of voting. The state currently owns the vote tabulation equipment, but there is no statutory obligation for this.

Since the bill is silent on the ownership of such equipment, the Secretary of State assumes that the cost of obtaining such equipment would fall to the counties. As an informational note, the Secretary of State has estimated that the counties would be replacing the current equipment at a cost of approximately \$15.5 million. The cost borne by any individual county would vary.

No fiscal impact to the state.

**Explanation of Estimate:**

LB742 provides for instant runoff voting. The current vote tabulation equipment will not work with this system. Although the state owns the current vote tabulation equipment, there is no statutory obligation for the state to provide the equipment to the counties. Therefore, this bill has no fiscal impact for the Secretary of State.

For information purposes, replacing the equipment statewide would cost approximately 15.5 million dollars.
