Current law authorizes first or second class cities (Sec. 19-922) and counties (Sec. 23-172) to adopt building, plumbing, electrical, fire prevention and other codes. For this purpose, the municipalities and counties are authorized to adopt any standard code by reference to such code. Further, current law provides that the adoption of any standard code by reference shall be construed to incorporate such amendments as may be made to such standard code. LB802 would strike the provision relating to incorporation of amendments adopted to standard codes. Any impacts of striking this provision relating to incorporation of amendments to standard codes would be dependent upon future actions of the related political subdivisions to adopt / not adopt amendments to the standard codes.
