LB 1103 requires the Education Committee of the Legislature to conduct a strategic planning process to create a statewide vision for education in Nebraska. The committee may conduct meetings, work sessions, and focus groups with individuals and representatives of educational interests, taxpayer groups, the business community and other interested entities. The committee shall hold at least three public hearings and must submit a report regarding the visioning process on or before December 31, 2014.

Since the bill does not create a task force of individuals outside of the Legislature, it is assumed the Legislative Council has sufficient staff and resources to handle the responsibilities of the bill related to meetings, public hearings and reporting in FY2014-15. So, the bill has no additional fiscal impact for the Legislative Council.
